## NEW ERGO WARM JKT

03279501100C000.10

New Ergo Warm Jacket is the new and highly protective winter jacket conceived to be a proper shield which protects the rider from the cold, the wind and the humidity, thanks to the 3 layers-fabric. The insulating inside layer is soft, warm and three dimensional, facilitating the transpiration.

Transpiration is also facilitated by 4 strategic openings which allow the so-called chimney effect : two with flap and inside mesh on the back and two with zip and inside mesh in the underarm area. These 4 openings create ventilation and consequently the drying and transpiration of the sweat, this ventilation can be modulated in the underarm by opening the zips when climbing and closing them in downhill descents. This jacket allows you to be out on a bike also with temperatures that go from -3°C to 5°C.

The reflective fabric used on the large pockets area and reflective logos ensure high visibility.

A small pocket on the arm allows one to carry some accessory or the waste packaging of the bars.

### TECHNICAL FEATURES:

- Ergonomic jacket in 3L fabric, membrane and three-D inside layer
- Full-length reverse cam-lock zipper YKK® with inner windproof flap and zipper garage
- Side panels in warm structured stretch fabric.
- 2 Adjustable zippered underarm ventilation openings, plus two ventilation openings with flap on back
- Reflective fabric at pockets and reflective logos for high visibility
- Elastic band with silicone gripper at bottom hem
- Small accessory pocket on the right arm

### TECNICITÀ:

- Giacca ergonomica in tessuto 3 strati con membrana e strato interno tridimensionale isolante
- Lampo lunga divisibile con flap interna antivento
- 2 Aperture laterali per aerazione regolabili tramite zip
- Due flap posteriori per l'aerazione e fioriuscita sudore
- Tessuto rifrangente alle tasche posteriori e loghi rifrangenti alta visibilità
- Tessuto stretch goffrato per i pannelli laterali
- Elastico grippante con silicone al fondo giacca
- Piccola tasca porta accessori al braccio destro

## ERGO LIGHT JKT

03296101100C000.10

Ergo Light Jacket is the upgrade of one of our greatest bestsellers which was our Carena Jacket.

Patch logo at chest, white reflective logos, external claim plus the use of different colors between sleeves and body.

It confirms to be an iconic garment of the winter Nalini collection, ideal garment for days with weather instability and possible rain: thanks to its membrane, which gives water- and windproof properties, and to its elastic and breathable fabric. Ergo Light Jacket is the perfect thermal garment adapt to non extreme cold temperatures and therefore very useful in the mid seasons too. You can use it simply with a base layer or with a long sleeve jersey when the temperature is colder.

### TECHNICAL FEATURES:

- Softshell jacket, long sleeve in water- and windproof material
- Fleeched fabric on the inside
- Full-length front covered zipper YKK® with inner wind protection flap
- Elastic gripper at bottom hem
- White and grey reflective logos, claim at shoulder
- Full-length reflective piping at back lower elastic

### TECNICITÀ:

- Giacca di medio peso a manica lunga con membrana antivento e antipioggia
- Tessuto interno garzato
- Lampo lunga nascosta YKK® con flap antivento
- Elastico gripante al fondo giacca
- Piping rifrangente su elastico posteriore al fondo
- Loghi rifrangenti davanti e dietro e claim bianco alla manica lato strada

## NEW ERGO XWARM JERSEY

03294001100C000.10  
\* 03294001100C001.10

Thermal jersey tight-fitted but extremely comfortable.

The renewed cuff's construction with a stretch laser cut fabric, avoids having at cuff bulky fabrics under the glove.

The textured fabric with a 3D surface, used in the upper body and sleeves. These characteristics make it provides superior aerodynamic properties and is water repellent which makes it adapt to be used also as an external garment on more mild days.

The thermal fabric used in the rest of the body is highly stretchable and fleeced making this jersey particularly soft and comfortable to wear.

### TECHNICAL FEATURES:

- Long sleeve thermal jersey
- Thermal and textured fleeced fabric in the upper part
- Full-length front cam-lock zipper YKK® with inner windproof flap
- Elastic band with silicone gripper at bottom hem
- Laser cut cuff in stretch water-repellent fabric of 2.5 layers
- 3 expandable back pockets with reflective piping
- White reflective logos and claim on shoulder
- Zipper garage on top and bottom

### TECNICITÀ:

- Maglia termica a manica lunga
- Tessuto garzato termico e texturizzato per parte alta e maniche
- Lampo lunga YKK® con tiretto cam lock e patella antivento per tutta la lunghezza
- Elastico con silicone grippante al fondo maglia
- Polsino con taglio al vivo in tessuto spalmato stretch e water repellent
- 3 tasche posteriori con piping rifrangente
- Elementi grafici davanti e dietro eseguiti con transfer reflex
- Zip garage sopra e sotto

# NEW ERGO XWARM BIB TIGHT

This bib short contains the highest technologies available: three-dimensional woven Kinetech fabric, laser cut, minimal stitching impact and the best chamois in the Nalini range.

## NEW ERGO XWARM BIB TIGHT

03229401100C000.10

New XWarm BibTight is the highest evolution of our iconic warmest bib tight in collection. The goal was to combine the highest protection with the maximum comfort and practical use. The points of strength are the differentiated levels of protection obtained through three-Layer fabrics which are also structured and three dimensional. The detachable braces with magnet hooks for an easy unwear, makes it practical for long exits and the necessary physiological stops. Ideal tight for riding in the cold winter weather. It provides a unique, differentiated, area-specific protection: insulation on the abdomen, wind and water protection on the front and saddle area, insulation and thermal protection on the tights, full elasticity at the glutes and rear of leg, stain and water protection in the lower part. This last lower part in stretch reflective thermal fabric gives protection and is practical to be used with the shoecover, since there is no overlap of zip, pullers and thickness in general.

### TECHNICAL FEATURES:

- Tight with ergonomic construction
- Detachable braces with practical magnet hooks for an easy unwear
- Higher front upper part for enhanced stomach protection, in 3D thermal stretchable fabric, adjustable with zippered opening
- Back protection in 3D stretch brushed fabric
- Front saddle area made from 3L fabric with membrane
- Fabric with membrane on the tights
- Water- and stain-repellent stretch and thermal fabric at leg hem, with reflective transfers
- White reflective logos
- Pre-shaped pad with differentiated support areas, made of stretch microfiber with bio ceramic particles
- Flatlock stitching for improved comfort

### TECNICITÀ:

- Calzamaglia con costruzione ergonomica
- Bretelle staccabili con due pratici ganci magnetici che facilitano l'utilizzo
- Corpino alto per maggiore protezione addominale in tessuto termico garzato tridimensionale con apertura regolabile tramite zip
- Protezione dorsale in tessuto due strati bicolore tessuto stretch garzato
- Zona frontale al cavallo in tessuto 3L con membrana
- Zona femorale ed ginocchia in tessuto con membrana 3D
- Fondo gamba in tessuto stretch termico, con parte posteriore rifrangente
- Loghi bianchi rifrangenti
- Fondello preformato con zone a sostegno differenziato, in tessuto microfibra stretch con particelle bioceramiche
- Cuciture piatte per maggiore comfort

## VENTURES LINE

**Get Lost To  
Find Yourself**

Addressed to the growing world of gravel for the use on long distances, each jersey presents a specific technical focus together with a larger number of pockets and a more regular fit .

## NEW WARM REFLEX JKT

03294201100C000.10

This high visibility jacket has been renewed in many details and cuts.

The three layer reflective fabric is altered with larger portions of black stretch warm fabric used in a wisely way that gives more stretchability and comfort to the garment.

This combination of fabrics makes the garment warm, anatomically fitted and perfect for security thanks to the large reflective portions. No limit to your hardest rides in the cold and also in low visibility conditions.

### TECHNICAL FEATURES:

- Three layer fabric, with external membrane completely reflective and fleeced inside
- Part of sleeves, side panels and front in thermal stretch fabric with durable Water-repellent treatment
- Full-length front cam-lock zipper YKK® with inner windproof flap
- Laser cut stretch fabric water repellent at cuff
- 3 back pockets + 1 zippered pocket made inside of water repellent fabric for electronic devices
- Longer foldable back tail for protection from stain and mud

### TECNICITÀ:

- Giacca in tessuto 3 strati con membrana esterna ultra rifrangente e garzatura interna
- Parte delle maniche, fianchetti e ventre in tessuto termico garzato con trattamento acquazero
- Lampo lunga divisibile con flap interno antivento
- Fondo manica in taglio laser con tessuto idrorepellente
- 3 tasche posteriori + 4° tasca invisibile in tessuto impermeabile per telefono o altri articoli elettronici
- Coda posteriore paraspruzzi ripiegabile

BACK TAIL IN WATER-AND STAIN-REPELLENT FABRIC

## FREEDOM JKT

03300801100C000.10

This jacket with a high-fashion look can be worn both for a bike ride and in your spare time. Despite having a regular fit and a casual style, the jacket retains all the technical features that are required of cycling apparel: free movement, breathability and differentiated thermal protection.

### TECHNICAL FEATURES:

- Technical winter jacket with Primaloft insulation on the front and back of the torso, and on the forearms
- Second fabric for sleeves of thermal stretch brushed fabric
- Thermal stretch brushed fabric on the back with DWR treatment
- Collar with brushed inner layer
- Full-length zipper YKK® with windproof flap
- Reflective logos and details
- Zipped back side pocket made of water-repellent fabric, with vertical zipper
- Zipped pocket at chest
- Elastic band with silicone gripper at bottom hem
- Patch-hook at the right arm to hang a security light

### TECNICITÀ:

- Giacca termica con corpo davanti in piumino primaloft
- Maniche in tessuto termico garzato con trattamento acquazero
- Tessuto comfort stretch sulla schiena con trattamento water repellent
- Collo con strato interno garzato
- Lampo lunga divisibile con flap interno antivento
- Taschino con zip sul davanti
- Tasca laterale con zip verticale in tessuto idrorepellente
- Elastico grippante con silicone al fondo giacca
- Loghi rifrangenti
- Patch su manica destra per inserimento luce

## WARM VEST

03293601100C000.10

This is a garment that each rider falls in love with. This new version has been upgraded with stretch side panels and a more elastic waist construction.

Thanks to its inner thermal lining, the Warm Vest is a great garment to have in today's milder winters.

It can be worn in winter with a fleeced jersey in non-extreme temperatures or during spring and fall, to provide wind and thermal protection.

### TECHNICAL FEATURES:

- Windproof fabric, internally lined with Primaloft thermal insulation on the front and on the shoulders
- Back and side panels in comfort stretch fabric to provide superior breathability and elasticity
- Wide high visibility panel on the back pockets' area
- Full-length front zipper YKK® with inner wind protection flap
- Collar with inner fleece warm lining
- 3 wide back pockets made of high reflective material
- White reflective logos on front and back
- External elastic at bottom hem with silicone

### TECNICITÀ:

- Tessuto antivento internamente foderato su tutta la parte frontale con imbottitura termica primaloft
- Inserto schiena, in tessuto comfort stretch per la traspirazione e l'elasticità
- Pannello posteriore rifrangente zona tasche
- Lampo lunga YKK® con flap interno antivento
- 3 capienti tasche posteriori
- Loghi bianchi reflex
- Elastico esterno al fondo con silicone

## 3L REFLEX VEST

03295601100C000.10

3L Reflex Vest is a condensate of technical properties.

Storm Shield is a high end technical three layers fabric ensuring wind and water protection.

The same properties are kept also in the high visibility reflective fabric used on the back.

When a rider wears this vest, he is sure to be visible in all different lighting conditions and to be protected also for sudden changes of the weather, with no compromise in the comfort.

The double way zipper allows the rider to open the bottom when he needs a little more ventilation at the belly, but wants to be protected from wind at neck.

Thanks to all these properties the cyclist can use this garment in the winter season on top of thermal garments, but also in summer on top of a summer kit when he climbs up the mountains and the air is cooler, especially in downhill direction.

### TECHNICAL FEATURES:

- Frontal storm shield 3L fabric is 4 way stretchable, windproof and water repellent
- Back panel and pockets reflective 3L fabric stretchable, highly reflective, windproof and water repellent
- Race fit and yet comfortable thanks to the fabric's stretchability
- Two-way zipper, long wind protective flap behind the zip and zip garage at bottom
- 3 rear wide pockets with elastic border
- Elastic silicone gripper at bottom hem

### TECNICITÀ:

- Tessuto nero frontale con membrana completamente antivento e antiacqua
- Tessuto rifrangente a tre strati con proprietà di antiacqua, antivento sul pannello schiena e tasche
- Taglio aderente, ma confortevole grazie all'elasticità del tessuto
- Zip a doppio cursore con patella antivento su tutta la lunghezza e zip garage al fondo
- 3 ampie tasche posteriori con bordo elastico
- Elastico grippante interno

## WARM WRAP JERSEY

03300601100C000.10  
\* 03300601100C001.10

Warm Wrap Jersey is a warm and stretchable jersey that wraps you in a soft and warm fabric, pre-dyed in most trendy colors.

The high visibility insert on the sleeves improves visibility in low light conditions.

It is suitable to be the outer garment in the mid seasons and in mild winter days or worn under a jacket on the coldest days.

With bib short or bib tight they form an integrated high visibility system.

### TECHNICAL FEATURES:

- Long sleeve thermal jersey in comfort stretch fabric
- High reflective inserts at sleeves
- Full-length reversed front cam-lock zipper YKK® with windproof inner flap and zip garage
- 3 back pockets with reflective piping
- Reflective white logos and claim
- Elastic silicone gripper at back bottom hem

### TECNICITÀ:

- Maglia termica a manica lunga in tessuto comfort stretch
- Inserti rifrangenti su maniche
- Lampo lunga a vista YKK con tiretto cam lock e flap interno anti vento
- Tre tasche posteriori con piping rifrangente
- Elastico grippante al fondo maglia

# WARM SS JERSEY

03298001100C000.10

Warm SS Jersey is a garment still not so common in a rider's wardrobe. Nevertheless, we know this became a must in the professionals' equipment, thanks to the extremely flexible use that you can do of it. Perfect in the mid season situations, but also in winter under a jacket or worn with arm warmers. The soft touch of its fabric makes it also extremely comfortable.

## TECHNICAL FEATURES:

- Short sleeve thermal jersey in comfort stretch fabric
- Full-length reversed front cam-lock zipper YKK® with windproof inner flap and zip garage
- 3 back pockets with reflective piping
- Reflective white logos and claim
- Elastic silicone gripper at back bottom hem

## TECNICITÀ:

- Maglia termica a manica corta in tessuto comfort stretch

## ADVENTURES BIB TIGHT

03295501100C000.10

Ergonomic bib tight made of a 3D textured fabric, that ensures thermal protection, comfort and high visibility.

The fabric is provided with a durable water repellent treatment that makes it particularly adapt to the humid winter days.

The high visibility inserts at both calves are also functional to low visibility winter days.

The several properties of the main fabric are enriched and underlined by the hexagon pattern which makes it stand out among the many black bib tights offered on the market.

It is completely assembled with flat lock stitching, and it mounts a top of gamma thermo-shaped pad with high density foams and differentiated thickness.

### TECHNICAL FEATURES:

- Ergonomic bib tight in thermal stretch fabric with hexagon structure
- DWR treatment applied
- Wide high visibility inserts at both calves
- Warm mesh on back upper part, with micro holes in the fabric and opening in the construction, for an improved transpiration
- Reflective silver logos
- Thermo-shaped pad with high density foams and differentiated support areas, in bioceramic stretch fabric

### TECNICITÀ:

- Calzamaglia in tessuto termico stretch con struttura esterna ad esagono
- Inserti in tessuto reflex alta visibilità ad entrambi i polpacci
- Trattamento DWR
- Corpino in rete termica con microfori nel tessuto e apertura nella costruzione per una maggiore traspirazione
- Loghi silver reflex
- Fondello privo di cuciture con spugne reticolate ad alta densità e zone a sostegno differenziato, in tessuto stretch bioceramico

## **Back To The Essential**

We speak here to a rider who wants to stand out on the road with bright colours, for visibility and security reasons, but also for fun, because riding in a new kit is also this... Is the pleasure to stand out with original colours and graphics.

A mix of race fit and comfortable fit to be able to address to different needs.

## NEW ASFALTO JKT

03303301100C000.10

New Asfalto jacket protects you like jackets, but fits you like a jersey. It has been developed to guarantee high thermal protection and freedom of movement.

The 3-layers stretch fabric (with membrane and DWR treatment), is used on body front, back and rear pockets.

Sleeves and side panels are in warm stretch fabric giving to the garment a nice slim fit and comfort in the movement.

Reflective details are used on the back to ensure the visibility of the rider to drivers.

### TECHNICAL FEATURES:

- Main fabric in 2 layer-stretch plus coating and DWR treatment
- Thermal stretch fabric in side panels and sleeves with DWR treatment
- Ergonomic set-in cut
- Full-length covered zipper YKK®, with inner wind protection flap and zip garage
- 3 practical rear pockets with reflective piping
- Inner silicone elastic with gripper at bottom hem

### TECNICITÀ:

- Giacca in tessuto stretch 2 strati con spalmatura e trattamento DWR
- Taglio giro ergonomico
- Maniche in tessuto comfort stretch con trattamento DWR
- Lampo lunga nascosta YKK® con flap interno antivento e zip garage
- 3 pratiche tasche posteriori con bordo rifrangente

## TRAGUARDO JKT

03304401100C000.10

The Traguardo jacket has been developed to grant thermal protection and protection against humidity and the first drops of rain.

The 2-layers stretch fabric (with coating and DWR treatment), is used to ensure the necessary thermal protection to the most exposed parts of the body: front side, sleeves' upper part and in rear pockets.

The thermal Super Roubaix fabric is used on the back panel to ensure freedom of movement and evaporation of the sweat.

Reflective details are used on the back to ensure the visibility of the rider to drivers.

### TECHNICAL FEATURES:

- Jacket in 2L stretch fabric with coating and DWR treatment
- Ergonomic raglan cut
- Superroubaix inserts on back panel
- Full-length reverse zipper YKK® with inner wind protection flap and zip garage
- 3 practical rear pockets with reflective piping
- Elastic with silicone gripper at inside hem
- Cuff in clean cut coat and fleeced fabric

### TECNICITÀ:

- Giacca in tessuto stretch 2 strati con spalmatura e trattamento DWR
- Taglio manica raglan ergonomico
- Inserto in tessuto comfort stretch nel centro schiena
- Lampo lunga rovescia YKK® con flap interno antivento e zip garage

## ROAD WIND BIB TIGHTS

03068701100C000.10

03068701100C001.10\*

This bib tight offers maximum thermal and windproof protection.

It is made in stretch 3-layers fabric with membrane and DWR treatment in the front side, including the knee area.

The braces, the back side and the leg hem are made in stretch fabric with DWR treatment to ensure the maximum freedom of movement.

The leg hem is provided with curved reflective insert, to ensure high visibility both on the front and on the rear.

All logos in the front side and back side are reflective.

### TECHNICAL FEATURES:

- Ergonomic bib tight
- Thermal 3L fabric with membrane and DWR treatment in front side including knee area
- Comfort stretch fabric with DWR treatment in back side, braces and leg hem
- Reflective details and logos
- Bi-elastic anatomical pad
- Flatlock stitching

### TECNICITÀ:

- Calzamaglia con costruzione ergonomica
- Tessuto termico 3 strati con membrana e trattamento DWR nella zona delle cosce e del ginocchio
- Tessuto comfort stretch con trattamento DWR per parte posteriore e corpino e fondo gamba
- Loghi e inserti rifrangenti
- Fondello anatomico bielastico
- Cuciture piatte

## IDEALE BIB TIGHT

03296801100C000.10

A winter bib tight with minimum number of cuts and seams: this was possible thanks to the use of new technologies and newest fabrics.

The result is a clean and functional garment with that touch of color in the braces which makes it stand out.

The Super Roubaix fabric ensures excellent thermal protection, grants the utmost comfort and freedom of movement.

The Upper part is made in a "microfresh" fabric which keeps the body dry, thanks to the high breathability.

### TECHNICAL FEATURES:

- Bib tight in Super Roubaix with an essential construction
- Upper part in microfresh fabric in laser cut and no seams
- Reflective logos tone sur tone
- Bi-elastic anatomical pad
- Comfort stretch elastic band at legs' hem

### TECNICITÀ:

- Calzamaglia in tessuto Super Roubaix dalla costruzione pulita ed essenziale
- Corpino in tessuto microfresh in taglio laser e senza cuciture
- Loghi rifrangenti tono su tono
- Fondello anatomico bielastico
- Elastico comfort stretch al fondo gamba

# IDEALE BIB SHORT

03221401100C000.10

Fleeced thermal bib short with a long-lasting water repellent treatment. This particular treatment protects the athlete from humidity and rain.

The upper construction is renewed with the eye-catching three dimensional bi-color elastic which gives a subtle and elegant touch of color combined to softness and high elastic support. The upper back panel is made of stretch thermal fabric micro-perforated for a better breathability.

## TECHNICAL FEATURES:

- Bib Short with ergonomic construction and DWR treatment
- Upper back panel made of microperforated stretch thermal fabric
- Reflective logos
- Microfiber elastic with silicone dots at leg's hem
- Bi-elastic anatomical pad
- Flat stitching for better comfort

## TECNICITÀ:

- Pantaloncino con costruzione ergonomica e trattamento DWR
- Pannello posteriore in tessuto comfort stretch leggermente termico e microperforato
- Loghi rifrangenti
- Elastico in microfibra con silicone gripante al fondo gamba
- Fondello anatomico bielastico
- Cuciture piatte per maggior comfort

# FULL SEASON LINE

## For all weather conditions

Windproof, rainproof, mid-warm and protective, the garments in the Full Season line are ideal for cycling all year round, in all weather conditions.

Easy to wear and to carry with you, the garments in this line will ensure that kind of protection that on bike you often need to carry with you in many situation.

### NEW WR MAN JACKET

03225701100C000.10

Windproof and water repellent jacket entirely made of a three layer fabric with WR treatment. The properties of this fabric are highly technical: protection from wind and water with a 20.000 water column, good breathability from inside towards outside and stretchability. The lightness, despite the three layers, give the possibility to pack it and carry it in a pocket. The partial taping on seams of the shoulders gives the garment medium protection from rain.

#### TECHNICAL FEATURES:

- 3layer fabric, weight 90 gr/m<sup>2</sup> with D.W.R. treatment (water column 20000 mm)
- Thermo taped at shoulders and at set-in sleeves
- Reversed full-length cam-lock zipper YKK®
- Wind flap behind zip and chin guard on top
- Inner collar in comfortable fabric
- Reflective logos in front and back side
- Silicone elastic band at waist
- 3 rear pockets

4400

#### TECNICITÀ:

- Tessuto 3 strati da 90 gr/m<sup>2</sup> con trattamento idrorepellente colonna d'acqua 20000 mm
- Termonastratura su spalle e giromanica
- Lampo rovescia YKK® con tiretto cam lock
- Protezione interna antivento con zip garage
- Interno collo in tessuto confortevole
- Logo rifrangente anteriore e posteriore
- Elastico grippante con silicone al fondo
- 3 tasche posteriori

# WR SS JACKET

03225901100C000.10

Innovative concept of windproof and water repellent jacket, done in SS version. The shorter sleeve makes this jacket adapt to all seasons, for those situations where a long sleeve jacket creates excessive sweating: this jacket is the perfect compromise.

Entirely made of a three layer fabric with WR treatment. The properties of this fabric are highly technical: protection from wind and water with a 20.000 water column, good breathability from inside towards outside and stretchability. The lightness, despite the three layers, gives the possibility to pack it and carry it in a pocket, especially in this ss version. The partial taping on seams of the shoulders gives the garment medium protection from rain.

**TECHNICAL FEATURES:**

- 3layer fabric, weight 90 gr/m<sup>2</sup> with D.W.R. treatment (water column 20000 mm)
- Thermo taped at shoulders and at the set-in sleeves
- Reversed full-lenght cam-lock zipper YKK®
- Wind flap behind zip and chin guard on top
- Inner collar in comfortable fabric
- Reflective logos in front and back side
- Silicone elastic band at waist
- 3 rear pockets

**TECNICITÀ:**

- Tessuto 3 strati da 90 gr/m<sup>2</sup> con trattamento idrorepellente colonna d'acqua 20000 mm
- Termonastratura su spalle e giromanica
- Protezione interna antivento con zip garage
- Lampo rovescia YKK® con tiretto cam lock
- Interno collo in tessuto confortevole
- Logo rifrangente anteriore e posteriore
- Elastico grippante con silicone al fondo
- 3 tasche posteriori

# FITTING • VESTIBILITÀ

Fitting is one of the main features of technical garments, which must ensure maximum freedom of movement.

Moa Lab has developed two different fitting styles according to body anatomy and use.

La vestibilità è una delle caratteristiche principali dei capi tecnici, che deve assicurare la massima libertà di movimento. Moa Lab ha sviluppato due diversi tipi di fitting in funzione della conformazione e delle condizioni di utilizzo.

## XRACE

These garments are particularly slim fit, jerseys and jackets are shorter on the frontal part to avoid folded exceeding fabric on belly when on bike.

Questi capi hanno un taglio particolarmente asciutto, maglie e giacche sono più corte nella parte frontale per evitare tessuto piegato in eccesso al ventre del ciclista quando in bici.

## RACE

Anatomic and ergonomic-fit garments for demanding cyclists.

Capi con taglio anatomico ed ergonomico per ciclisti esigenti.

## REGULAR

Standard-fitting garments with particular focus on comfort.

Capi meno attillati con una particolare attenzione al comfort.

## COMFORT

This indication is given on garments that are meant to be more loose and not very close to the body, and on garments that are very stretchy and therefore very adaptable such as the seamless ones.

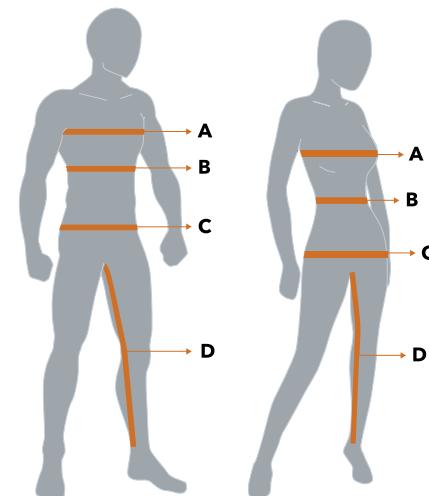

Questa indicazione è data su capi che sono pensati per una vestibilità morbida non così vicina al corpo del ciclista, e su capi con una tale elasticità che permette grande adattabilità come quelli seamless.

# SIZES • MISURE

The chart indicates the correspondence between Moa Lab sizes and body measurements expressed in centimetres. In order to find the exact size, measurements should be taken on the naked body, holding the measuring tape close to the body but not tight.

La tabella indica la corrispondenza delle taglie Moa Lab con le misure in centimetri del proprio corpo. Per determinare la taglia con precisione, le misure vanno prese sul corpo nudo; il metro deve aderire perfettamente alla pelle, senza stringere.

## PADS • FONDELLI

The Pad has a protective function and therefore it is considered one of the most important contact points between the cyclist and the bicycle.

It is good to keep in mind that little or excessive protection can develop various diseases for the cyclist: from nerve inflammation up to real circulatory problems and complications. You can protect yourself without neglecting comfort and performance! Moa Sport has been among the first to introduce the pad in cycling clothing. Today's know-how of the company is based on almost 50 years of collaboration with professional teams as Banesto, Telecom, Carrera, Mercatone, Movistar, Astana, etc., and their champions as Hindurain, Ulrich, Pantani, Chiappucci, Vinokourov, Valverde, Nibali, Aru and many others. They have contributed with precise indications and feedback to the development of the pad, to make it really functional for protection and performance.

In all these years professional riders have helped Moa sport to understand how to improve this essential part of the rider's equipment, but also we have learnt how it can be an accessory totally subjective.

For this reason, we have developed pads with different protections, densities, technologies and materials always with a particular attention to details...

Because as it is known, they make the difference!

All our pads are produced with Oeko-tex® certified materials. Oeko-tex® is a certification that safeguards users from the presence of dangerous substances in the fabrics. Moreover, our fabrics and foams are all antibacterial, light, breathable, hydrophilic, and soft and they are assembled with modern technology and design.

In the range of the pads branded Nalini/Moa, you will surely find one that suits your saddle and your riding activity.

Per il ruolo protettivo che svolge, il Fondello (anche conosciuto come Pad o Chamois), è tra i punti di contatto tra ciclista e bicicletta, forse il più importante!

È bene tenere presente che, poca o eccessiva protezione possono sviluppare svariate patologie in chi pratica ciclismo: da infiammazioni di natura nervosa fino a veri e propri problemi circolatori con relative complicanze. Proteggersi sì, ma senza trascurare comfort e prestazione! Moa Sport è stata tra i primi ad aver introdotto il fondello nell'abbigliamento tecnico per ciclisti; il know-how dell'azienda è dovuto a quasi 50 anni di collaborazione con Team professionistici come Banesto, Telecom, Carrera, Mercatone, Movistar, Astana, etc., e al dialogo con i campioni che hanno militato in queste squadre: da Hindurain, Ulrich, Pantani, Chiappucci fino ad arrivare ai Vinokourov, Valverde, Nibali, Aru e centinaia di altri grandi atleti che puntuali hanno indirizzato Moa Sport nella creazione di prodotti di altissima qualità, sia per la protezione sia per la performance.

Tutti questi anni al fianco di grandi professionisti hanno aiutato Moa Sport a capire quanto un fondello possa essere indispensabile per praticare ciclismo, ma anche quanto sia un accessorio assolutamente soggettivo.

Per questo motivo sono stati sviluppati fondelli con diverse protezioni, densità, tecnologie e tessuti, sempre con una particolare attenzione ai dettagli... Perché si sa, fanno la differenza!

Tutti i fondelli di Moa Sport sono prodotti con materiali certificati di aziende certificate Oeko-tex®, ente che tutela la qualità dei materiali. Questa prerogativa rende i prodotti eccellenti, per quanto riguarda antibattericità, leggerezza, traspirabilità, idrofilia e morbidezza ma anche per tecnologia e design.

Nella gamma di fondelli firmati Nalini/Moa Sport troverete sicuramente quello adatto alla vostra sella e alla vostra attività sportiva.

## RANDONNÉ MAN

015.100.00763

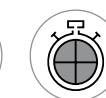

Randonné is a next-generation pad, specifically designed for long-distance rides such as Randonnés - as the name suggests. The use of reticulated foam offers maximum support in all three basic saddle positions: descending, climbing and racing. Besides providing support, the foam suits perfectly all riding movements and positions. This pad combines hygiene, comfort and anatomical design. The microfiber fabric guarantees hygiene, softness and moisture control. Moreover, ceramic threads in the surface fabric of the pad boosts heat regulation and microcirculation, hence providing improved temperature control and minimizing chafing.

### TECHNICAL FEATURES

- Oeko-tex® certified materials
- Bi-elastic anatomically shaped pad
- Ceramic fibers
- Natural antibacterial treatment
- Hydrophilic microfiber fabric
- Backing: reticulated High Impact foam
- Lightweight
- High breathability
- Suitable for long-distance rides (randonnés)

**MAN**

**8 H**

**RANDONNÉ MAN**  
**DENSITY 120 KG/M<sup>2</sup>**

Il Randonné è un fondello di nuova generazione studiato specificatamente per uscite molto lunghe come le Randonnés. L'utilizzo delle spugne reticolate offre il massimo del supporto in tutte e tre le posizioni classiche della pedalata: descendendo, salendo e in gara. Tali spugne non solo danno supporto, ma si adattano perfettamente ai movimenti e alle posizioni del ciclista. Questo fondello abbina insieme comfort, anatomia e soprattutto igiene, grazie alla microfibra che lo mantiene asciutto e che conferisce morbidezza. Inoltre, l'inserimento di fili ceramici presenti nel tessuto di copertura del fondello permettono una migliore termoregolazione e microcircolazione garantendo una temperatura più controllata e diminuendo il rossore da frizione.

### TECNICITÀ

- Materiali certificati Oeko-tex®
- Fondello anatomico bielastico
- Fibre ceramiche
- Trattamento antibatterico naturale
- Tessuto microfibra idrofilo
- Supporto High Impact foam reticolata
- Leggero
- Alta traspirabilità
- Adatto per lunghissimi percorsi (Randonné)

# GRANFONDO PRO MAN 120 Q-SKIN

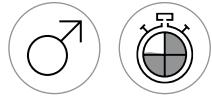

015.100.00764

The Granfondo pad offers a combination of state-of-the-art technology, from high-quality materials to an innovative construction. The padding is manufactured by progressive cutting of a high-density reticulated foam, with different thicknesses based on body weight and pressure points, to ensure maximum support to all bodily contact with the saddle. Besides providing support, the foam also ensures breathability and softness, so that the pad never feels heavy or bulky.

This pad combines hygiene, comfort and anatomical design. The antibacterial treatment ensures hygiene, and the microfiber fabric guarantees softness and moisture control. Moreover, the bio-ceramic fibers in the fabric of the pad touching the skin boosts heat regulation (leaving the skin pleasantly fresh) and microcirculation, hence providing improved temperature control and minimizing chafing.

## TECHNICAL FEATURES

- Oeko-tex® certified materials
- Bi-elastic anatomically shaped pad
- Bio-ceramic fibers integrated in the microfiber
- Natural antibacterial treatment
- Backing: reticulated High Impact foam
- Lightweight
- High breathability
- Suitable for long-distance competitive/amateur rides

# PERCORSI MISTI 100 MAN

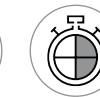

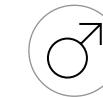

015.100.00765

The Percorsi Misti pad offers a combination of state-of-the-art technology, from high-quality materials to an innovative construction. The padding is manufactured by progressive cutting of a high-density foam, with different thicknesses based on body weight and pressure points, to ensure maximum support to all bodily contact with the saddle. This supportive pad is especially suited for mixed terrain rides, where the athlete often has to get in and out of the saddle.

It combines hygiene, comfort and anatomical design. The antibacterial treatment ensures hygiene, the microfiber fabric guarantees softness, and the structure of the fabric touching the skin provides fast moisture wicking, leaving you feeling dry at all times.

## TECHNICAL FEATURES

- Oeko-tex® certified materials
- Bi-elastic anatomically shaped pad
- Structured microfiber tissue
- Natural antibacterial treatment
- Backing: reticulated High Impact foam
- Lightweight
- High breathability
- Suitable for long-distance gravel and mixed terrain rides

**PERCORSI MISTI 100 MAN**  
DENSITY 100 KG/M<sup>2</sup>  
COLOR VIOLA AUBERGINE

Il fondello Percorsi Misti integra un insieme di tecnologie di ultima generazione, dai materiali di utilizzo alla costruzione. L'inserimento dell'imbottitura avviene partendo da un sistema di taglio progressivo di una schiuma reticolata ad altissima densità, modulando lo spessore in base al peso e alla pressione dei vari punti di contatto e garantendo il massimo supporto su tutti i punti di appoggio tra corpo e sella. Il supporto dato da questo fondello si adatta particolarmente a percorsi misti dove il ciclista spesso si solleva dalla sella.

Abbina assieme igiene, confort e anatomia, grazie al trattamento antibatterico, alla microfibra che lo rende morbido e la fa rimanere asciutto. L'inserimento di filato bioceramico presente nel tessuto del fondello a contatto con la pelle consente una migliore termoregolazione e aumenta la micro-circolazione garantendo una temperatura più controllata e diminuendo il rossore da frizione.

## TECNICITÀ

- Materiali certificati Oeko-tex®
- Fondello anatomico bielastico
- Tessuto strutturato in microfibra
- Trattamento antibatterico naturale
- Supporto High Impact foam reticolata
- Leggero
- Alta traspirabilità
- Adatto per lunghi percorsi misti/gravel

# SERIE 3D M 80 GEL

015.100.00423

Our new pad with composite structure combines hygiene, comfort and anatomical design. The microfiber fabric guarantees hygiene, softness and moisture control. The surface fabric of the pad boosts heat regulation and microcirculation, hence providing improved temperature control and minimizing chafing.

The pad is anatomically shaped, and makes use of high-impact foams, with gel cushioning strategically located at the sit bones, to ensure maximum vibration and shock absorption.

## TECHNICAL FEATURES

- Oeko-tex® certified materials
- Bi-elastic anatomically shaped pad
- Natural antibacterial treatment
- Microfiber fabric
- Backing: High Impact foam
- Gel cushioning for the sit bones
- Lightweight
- High breathability
- Suitable for road racing, mountain biking and bicycle tourism

DENSITY 100 KG/M<sup>2</sup>  
COLOR BLACK

Ideato e disegnato per l'anatomia maschile, questo fondello è caratterizzato da un'ottima vestibilità, grazie all'elasticità dei materiali utilizzati.

Le qualità idrofile dei componenti consentono un'eccellente traspirabilità e una rapida dissipazione dell'umidità con una conseguente sensazione di freschezza. La parte anteriore allungata permette un comfort superiore e maggior libertà nel movimento.

## TECNICITÀ

- Materiali certificati Oeko-tex®
- Fondello anatomico bielastico
- Alta traspirabilità
- Trattamento antibatterico naturale
- Supporto alta densità
- Leggero
- Adatto per percorsi medi road/MTB

# 4D LADY COMFORT

015.100.00762

Our next-generation Lady Comfort pad is specifically designed to fit a woman's body and is ideal for long distance riding. The use of reticulated foam offers maximum support in all three basic saddle positions: descending, climbing and racing. Besides providing support, the foam suits perfectly all riding movements and positions.

It combines hygiene, comfort and anatomical design. The antibacterial treatment ensures hygiene, the microfiber fabric guarantees comfort and softness, and the structure of the fabric touching the skin provides fast moisture wicking, leaving you feeling fresh at all times.

## TECHNICAL FEATURES

- Oeko-tex® certified materials
- Bi-elastic anatomically shaped pad
- Structured microfiber tissue
- Natural antibacterial treatment
- Lightweight
- Suitable for long-distance competitive/amateur rides

WOMAN

**4D LADY COMFORT**  
DENSITY 80/100 KG/M<sup>2</sup>  
COLOR AZZURRO

Il Lady Comfort è un fondello di nuova generazione studiato specificatamente per l'anatomia femminile e con una costruzione adatta ad uscite molto lunghe. L'utilizzo delle spugne reticolate offre il massimo del supporto in tutte e tre le posizioni classiche della pedalata: descending, climbing e racing. Tali spugne non solo danno supporto, ma si adattano perfettamente ai movimenti e alle posizioni del ciclista.

Abbina assieme comfort, anatomia e igiene grazie al trattamento antibatterico e alla microfibra che lo rende morbido. Infine, la struttura del tessuto a contatto con la pelle garantisce una rapida dissipazione dell'umidità e mantiene una sensazione di fresco.

## TECNICITÀ

- Materiali certificati Oeko-tex®
- Fondello anatomico bielastico
- Tessuto strutturato in microfibra
- Trattamento antibatterico naturale
- Leggero
- Adatto per lunghi percorsi agonistici/amatoriali

# PERCORSI MISTI LADY 100

015.100.00766

The Percorsi Misti Lady pad offers a combination of state-of-the-art technology, from high-quality materials to an innovative construction. The padding is manufactured by progressive cutting of a high-density foam, with different thicknesses based on body weight and pressure points, to ensure maximum support to all bodily contact with the saddle. This supportive pad is especially suited for mixed terrain rides, where the athlete often has to get in and out of the saddle.

It combines hygiene, comfort and anatomical design. The antibacterial treatment ensures hygiene, the microfiber fabric guarantees softness, and the structure of the fabric touching the skin provides fast moisture wicking, leaving you feeling dry at all times.

## TECHNICAL FEATURES

- Oeko-tex® certified materials
- Bi-elastic anatomically shaped pad
- Structured microfiber tissue
- Natural antibacterial treatment
- Backing: reticulated High Impact foam
- Lightweight
- High breathability
- Suitable for long-distance gravel and mixed terrain rides

**PERCORSI MISTI LADY 100**  
DENSITY 100 KG/M<sup>2</sup>  
COLOR VIOLA AUBERGINE

Il Percorsi Misti Lady integra un insieme di tecnologie di ultima generazione, dai materiali di utilizzo alla costruzione. L'inserimento dell'imbottitura avviene partendo da un sistema di taglio progressivo di una schiuma ad alta densità modulando lo spessore in base al peso e alla pressione dei vari punti di contatto e garantendo il massimo supporto su tutti i punti di appoggio tra corpo e sella. Il supporto dato da questo fondello si adatta particolarmente a percorsi misti dove il ciclista spesso si solleva dalla sella.

Abbina assieme comfort, anatomia e igiene, grazie al trattamento antibatterico, alla microfibra che lo rende morbido e alla struttura del tessuto a contatto con la pelle che garantisce una rapida dissipazione dell'umidità e mantiene una sensazione di asciutto.

## TECNICITÀ

- Materiali certificati Oeko-tex®
- Fondello anatomico bielastico
- Tessuto strutturato in microfibra
- Trattamento antibatterico naturale
- Supporto High Impact foam reticolata
- Leggero
- Alta traspirabilità
- Adatto per lunghi percorsi misti gravel

# SERIE 2.5 LADY

015.100.00635

This pad is specifically designed to suit a woman's body and to provide a perfect fit.

The construction uses multi-density foams to ensure greater support to the sit bones and reduce pressure on the pubic area for enhanced comfort.

The highly breathable fabric touching the skin leaves you feeling fresh and dry at all times.

## TECHNICAL FEATURES

- Oeko-tex® certified materials
- Bi-elastic anatomically shaped pad
- Elastic microfiber
- Natural antibacterial treatment
- High-density support
- Lightweight
- High breathability
- Suitable for medium-distance rides

COLOR ROSSO CORAL

Fondello ideato per l'anatomia femminile e caratterizzato da un'ottima vestibilità.

La costruzione con spugne differenziate garantisce maggior supporto in zona ischiatica e un confortevole appoggio in zona pubica.

Il tessuto a contatto con la pelle conferisce un'alta traspirabilità con una conseguente sensazione di freschezza e asciutto.

## TECNICITÀ

- Materiali certificati Oeko-tex®
- Fondello anatomico bielastico
- Microfibra elastica
- Trattamento antibatterico naturale
- Supporto ad alta densità
- Leggero
- Alta traspirabilità
- Adatto per percorsi di media lunghezza

# NALINI CUSTOM TEAMWEAR

Technical and innovative solutions, essential lines: the Teamwear collection is designed to ensure the best performance on two wheels, without sacrificing comfort and safety.

These garments stand out for their wearability and freedom of movement, thanks to the use of light and adherent fabrics, developed specifically to meet every effort and at the same time guarantee maximum breathability.

The Teamwear collection is a 100% Made in Italy product, created entirely at Moa Sport, which thanks to decades of experience in contact with professional athletes, uses a scrupulous and innovative manufacturing process, with Oeko-Tex certification.

From the competitive cyclist who explicitly seeks a technical and performing line, to those who simply have the passion for two wheels, the three lines **Race**, **Ride** and **Comfort** offer exclusive solutions with three levels of technicality that meet the specific needs of each type of use.

Soluzioni tecniche ed innovative, linee essenziali: la collezione Teamwear è studiata per favorire la migliore performance su due ruote, senza rinunciare a comodità e sicurezza.

Capi che si distinguono per vestibilità e libertà di movimento, grazie all'uso di tessuti leggeri e aderenti, sviluppati specificatamente per assecondare ogni sforzo e allo stesso tempo garantire la massima traspirabilità.

La collezione Teamwear è un prodotto 100% Made in Italy, creato interamente presso Moa Sport, che grazie a decenni di esperienza a contatto con atleti professionisti, si avvale di un processo di lavorazione scrupoloso ed innovativo, con certificazione Oeko-Tex.

Dal ciclista competitivo che cerca esplicitamente una linea tecnica e performante, a chi ha semplicemente la passione per le due ruote, le tre linee **Race**, **Ride** e **Comfort** offrono soluzioni esclusive con tre livelli di tecnicità che rispondono alle esigenze specifiche di ogni tipo di utilizzo.
