LADY

PINK LINE

Femininity & Performance

Our PINK LINE offers all technical levels and concepts of use that we have in the man's collection, of course in beautiful female cuts and taste.

NEW ASFALTO LADY JKT

03303401100C000.10

New Asfalto Lady jacket protects you like a jacket, but fits you like a jersey. It has been developed to guarantee high thermal protection and freedom of movement. The 2-layers stretch fabric plus coating and DWR treatment, is used on body front, back and rear pockets. Sleeves and side panels are in warm stretch fabric giving to the garment a nice slim fit and comfort in the movement. Reflective details are used on the back to ensure the visibility of the rider to drivers.

TECHNICAL FEATURES:

- Main fabric in 2 layer-stretch plus coating and DWR treatment
- Thermal stretch fabric in side panels and sleeves with DWR treatment
- Ergonomic set-in cut
- Full-length covered zipper YKK®, with inner wind protection flap and zip garage
- 3 practical rear pockets with reflective piping
- Inner silicone elastic with gripper at bottom hem

TECNICITÀ:

- Giacca in tessuto stretch 2 strati con spalmatura e trattamento DWR
- Taglio giro ergonomico
- Maniche in tessuto comfort stretch con trattamento DWR
- Lampo lunga nascosta YKK® con flap interno antivento e zip garage
- 3 pratiche tasche posteriori con bordo rifrangente
- Elastico interno grippante al fondo giacca

NEW ROAD LADY JKT

03221201100C000.10

This jacket made of 3-layer stretch fabric fits very comfortable. The inner membrane offers maximum protection in cold winter conditions, while the DWR treatment protects against the first raindrops. The combination of all colored pre-dyed fabrics makes the design sober and sporty at the same time. The inside layer of this technical fabric is textured and enables better breathability.

TECHNICAL FEATURES:

- Jacket in stretch 3-layer fabric with membrane and DWR treatment
- Ergonomic set-in sleeves
- Full-length front reverse zipper YKK® with inner wind protection flap
- 3 practical back pockets with reflective piping
- Elastic silicone gripper at hem
- Zipper garage

TECNICITÀ:

- Giubbino in tessuto elasticizzato, a 3 strati con membrana e trattamento DWR
- Taglio manica giro ergonomico
- Lampo lunga rovescia YKK® con flap interno antivento
- 3 pratiche tasche posteriori con piping rifrangente
- Elastico grippante con silicone al fondo giacca
- Zip garage

WARM WRAP LADY JERSEY

03301301100C000.10

* 03301301100C001.10

Warm Wrap Jersey is a warm and stretchable jersey that wraps you in a soft and warm fabric, pre-dyed in most trendy colors.

It is suitable to be the outer garment in the mid seasons and on mild winter days or worn under a jacket on the coldest days.

The soft touch of the fabric used will make this jersey your favourite ever.

TECHNICAL FEATURES:

- Long sleeve thermal jersey in comfort stretch fabric
- Full-length reversed front cam-lock zipper YKK® with windproof inner flap and zip garage
- 3 back pockets with reflective piping
- Reflective silver logos
- Elastic with silicone micro dots at hem

TECNICITÀ:

- Maglia termica a manica lunga in tessuto comfort stretch
- Lampo lunga a vista YKK con tiretto cam lock e flap interno antivento
- Tre tasche posteriori con piping rifrangente
- Elastico grippante in lunghezza al fondo maglia

NEW ROAD WR LADY BIB TIGHT

03228301100C000.10

For a demanding cyclist who goes out even in conditions of intense cold, New Road Wr Lady Bib Tight is the ideal product that offers ergonomics, protection from low temperatures and high visibility.

It is a garment studied in detail, made with stretch and comfortable fabrics and assembled with flat seams, giving the cyclist the feeling of a second skin. The leg hem is provided with curved reflective insert, to ensure high visibility both on the front and on the rear. All logos in front side and back side are reflective.

Upper part is made with a semi-open structure mesh, to guarantee protection and breathability at the same time, combined with microfiber elastic braces.

TECHNICAL FEATURES:

- Ergonomic bib tight in comfort stretch fabric
- Reflective logos
- Bi-elastic anatomical pad
- Flatlock stitching
- Curved stretch reflective insert in the lower leg part.

TECNICITÀ:

- Calzamaglia con costruzione ergonomica in tessuto comfort stretch
- Loghi e inserti rifrangenti
- Corpino in rete a trama fitta e bretelle in elastico in microfibra
- Fondello anatomico bi-elastico
- Cuciture piatte
- Ampio inserto elastico e rifrangente curvo al fondo gamba

ROAD WIND LADY TIGHT

03074301100C000.10

These tights are the perfect garment for the cyclist looking for comfort and high protection. They are made with 3 layer fabric with membrane and dwr treatment in front side. The stretch thermal fabric at leg hem is water and stain repellent. Waist and back side are made of thermal and stretch fabrics to ensure maximum freedom of movement.

TECHNICAL FEATURES:

- Ergonomic tight
- 3 layers fabric with membrane and DWR treatment in front side
- Comfort stretch fabric at waist and in back side
- Water - and stain repellent stretch fabric on lower legs
- Holographic reflective logos
- Bi-elastic anatomical pad
- Flatlock stitching
- Lower leg part in stain and water repellent stretch fabric

TECNICITÀ:

- Calzamaglia senza bretelle con costruzione ergonomica
- Tessuto 3 strati con membrana e trattamento DWR nella parte davanti
- Tessuto termico comfort stretch in vita e nella parte posteriore
- Tessuto a fondo gamba idrorepellente e antimacchia
- Fondello anatomico bi-elastico
- Loghi olografici rifrangenti
- Cuciture piatte
- Fondo gamba tessuto stretch antiacqua

FULL SEASON LINE

For all weather conditions

Windproof, rainproof, mid-warm and protective, the garments in the Full Season line are ideal for cycling all year round, in all weather conditions.

Easy to wear and to carry with you, the garments in this line will ensure that kind of protection that on bike you often need to carry with you in many situation.

NEW WR MAN JACKET

03225701100C000.10

Windproof and water repellent jacket entirely made of a three layer fabric with WR treatment. The properties of this fabric are highly technical: protection from wind and water with a 20.000 water column, good breathability from inside towards outside and stretchability. The lightness, despite the three layers, give the possibility to pack it and carry it in a pocket. The partial taping on seams of the shoulders gives the garment medium protection from rain.

TECHNICAL FEATURES:

- 3layer fabric, weight 90 gr/m² with D.W.R. treatment (water column 20000 mm)
- Thermo taped at shoulders and at set-in sleeves
- Reversed full-length cam-lock zipper YKK®
- Wind flap behind zip and chin guard on top
- Inner collar in comfortable fabric
- Reflective logos in front and back side
- Silicone elastic band at waist
- 3 rear pockets

4400

TECNICITÀ:

- Tessuto 3 strati da 90 gr/m² con trattamento idrorepellente colonna d'acqua 20000 mm
- Termonastratura su spalle e giromanica
- Lampo rovescia YKK® con tiretto cam lock
- Protezione interna antivento con zip garage
- Interno collo in tessuto confortevole
- Logo rifrangente anteriore e posteriore
- Elastico grippante con silicone al fondo
- 3 tasche posteriori

WR SS JACKET

03225901100C000.10

Innovative concept of windproof and water repellent jacket, done in SS version. The shorter sleeve makes this jacket adapt to all seasons, for those situations where a long sleeve jacket creates excessive sweating: this jacket is the perfect compromise.

Entirely made of a three layer fabric with WR treatment. The properties of this fabric are highly technical: protection from wind and water with a 20.000 water column, good breathability from inside towards outside and stretchability. The lightness, despite the three layers, gives the possibility to pack it and carry it in a pocket, especially in this ss version. The partial taping on seams of the shoulders gives the garment medium protection from rain.

TECHNICAL FEATURES:

- 3layer fabric, weight 90 gr/m² with D.W.R. treatment (water column 20000 mm)
- Thermo taped at shoulders and at the set-in sleeves
- Reversed full-lenght cam-lock zipper YKK®
- Wind flap behind zip and chin guard on top
- Inner collar in comfortable fabric
- Reflective logos in front and back side
- Silicone elastic band at waist
- 3 rear pockets

TECNICITÀ:

- Tessuto 3 strati da 90 gr/m² con trattamento idrorepellente colonna d'acqua 20000 mm
- Termonastratura su spalle e giromanica
- Protezione interna antivento con zip garage
- Lampo rovescia YKK® con tiretto cam lock
- Interno collo in tessuto confortevole
- Logo rifrangente anteriore e posteriore
- Elastico grippante con silicone al fondo

FITTING • VESTIBILITÀ

Fitting is one of the main features of technical garments, which must ensure maximum freedom of movement.

Moa Lab has developed two different fitting styles according to body anatomy and use.

La vestibilità è una delle caratteristiche principali dei capi tecnici, che deve assicurare la massima libertà di movimento. Moa Lab ha sviluppato due diversi tipi di fitting in funzione della conformazione e delle condizioni di utilizzo.

XRACE

These garments are particularly slim fit, jerseys and jackets are shorter on the frontal part to avoid folded exceeding fabric on belly when on bike.

Questi capi hanno un taglio particolarmente asciutto, maglie e giacche sono più corte nella parte frontale per evitare tessuto piegato in eccesso al ventre del ciclista quando in bici.

RACE

Anatomic and ergonomic-fit garments for demanding cyclists.

Capi con taglio anatomico ed ergonomico per ciclisti esigenti.

REGULAR

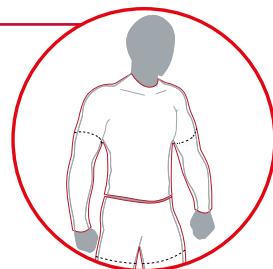

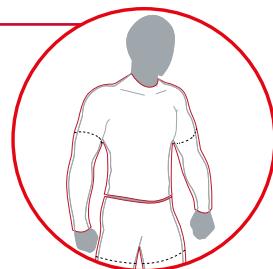

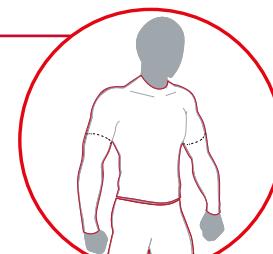

Standard-fitting garments with particular focus on comfort.

Capi meno attillati con una particolare attenzione al comfort.

COMFORT

This indication is given on garments that are meant to be more loose and not very close to the body, and on garments that are very stretchy and therefore very adaptable such as the seamless ones.

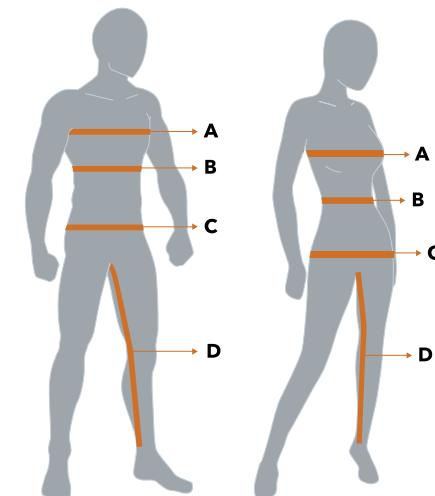

Questa indicazione è data su capi che sono pensati per una vestibilità morbida non così vicina al corpo del ciclista, e su capi con una tale elasticità che permette grande adattabilità come quelli seamless.

SIZES • MISURE

The chart indicates the correspondence between Moa Lab sizes and body measurements expressed in centimetres. In order to find the exact size, measurements should be taken on the naked body, holding the measuring tape close to the body but not tight.

La tabella indica la corrispondenza delle taglie Moa Lab con le misure in centimetri del proprio corpo. Per determinare la taglia con precisione, le misure vanno prese sul corpo nudo; il metro deve aderire perfettamente alla pelle, senza stringere.

PADS • FONDELLI

The Pad has a protective function and therefore it is considered one of the most important contact points between the cyclist and the bicycle.

It is good to keep in mind that little or excessive protection can develop various diseases for the cyclist: from nerve inflammation up to real circulatory problems and complications. You can protect yourself without neglecting comfort and performance! Moa Sport has been among the first to introduce the pad in cycling clothing. Today's know-how of the company is based on almost 50 years of collaboration with professional teams as Banesto, Telecom, Carrera, Mercatone, Movistar, Astana, etc., and their champions as Hindurain, Ulrich, Pantani, Chiappucci, Vinokourov, Valverde, Nibali, Aru and many others. They have contributed with precise indications and feedback to the development of the pad, to make it really functional for protection and performance.

In all these years professional riders have helped Moa sport to understand how to improve this essential part of the rider's equipment, but also we have learnt how it can be an accessory totally subjective.

For this reason, we have developed pads with different protections, densities, technologies and materials always with a particular attention to details...

Because as it is known, they make the difference!

All our pads are produced with Oeko-tex® certified materials. Oeko-tex® is a certification that safeguards users from the presence of dangerous substances in the fabrics. Moreover, our fabrics and foams are all antibacterial, light, breathable, hydrophilic, and soft and they are assembled with modern technology and design.

In the range of the pads branded Nalini/Moa, you will surely find one that suits your saddle and your riding activity.

Per il ruolo protettivo che svolge, il Fondello (anche conosciuto come Pad o Chamois), è tra i punti di contatto tra ciclista e bicicletta, forse il più importante!

È bene tenere presente che, poca o eccessiva protezione possono sviluppare svariate patologie in chi pratica ciclismo: da infiammazioni di natura nervosa fino a veri e propri problemi circolatori con relative complicanze. Proteggersi sì, ma senza trascurare comfort e prestazione! Moa Sport è stata tra i primi ad aver introdotto il fondello nell'abbigliamento tecnico per ciclisti; il know-how dell'azienda è dovuto a quasi 50 anni di collaborazione con Team professionistici come Banesto, Telecom, Carrera, Mercatone, Movistar, Astana, etc., e al dialogo con i campioni che hanno militato in queste squadre: da Hindurain, Ulrich, Pantani, Chiappucci fino ad arrivare ai Vinokourov, Valverde, Nibali, Aru e centinaia di altri grandi atleti che puntuali hanno indirizzato Moa Sport nella creazione di prodotti di altissima qualità, sia per la protezione sia per la performance.

Tutti questi anni al fianco di grandi professionisti hanno aiutato Moa Sport a capire quanto un fondello possa essere indispensabile per praticare ciclismo, ma anche quanto sia un accessorio assolutamente soggettivo.

Per questo motivo sono stati sviluppati fondelli con diverse protezioni, densità, tecnologie e tessuti, sempre con una particolare attenzione ai dettagli... Perché si sa, fanno la differenza!

Tutti i fondelli di Moa Sport sono prodotti con materiali certificati di aziende certificate Oeko-tex®, ente che tutela la qualità dei materiali. Questa prerogativa rende i prodotti eccellenti, per quanto riguarda antibattericità, leggerezza, traspirabilità, idrofilia e morbidezza ma anche per tecnologia e design.

Nella gamma di fondelli firmati Nalini/Moa Sport troverete sicuramente quello adatto alla vostra sella e alla vostra attività sportiva.

RANDONNÉ MAN

015.100.00763

Randonné is a next-generation pad, specifically designed for long-distance rides such as Randonnés - as the name suggests. The use of reticulated foam offers maximum support in all three basic saddle positions: descending, climbing and racing. Besides providing support, the foam suits perfectly all riding movements and positions. This pad combines hygiene, comfort and anatomical design. The microfiber fabric guarantees hygiene, softness and moisture control. Moreover, ceramic threads in the surface fabric of the pad boosts heat regulation and microcirculation, hence providing improved temperature control and minimizing chafing.

TECHNICAL FEATURES

- Oeko-tex® certified materials
- Bi-elastic anatomically shaped pad
- Ceramic fibers
- Natural antibacterial treatment
- Hydrophilic microfiber fabric
- Backing: reticulated High Impact foam
- Lightweight
- High breathability
- Suitable for long-distance rides (randonnés)

RANDONNÉ MAN
DENSITY 120 KG/M²

Il Randonné è un fondello di nuova generazione studiato specificatamente per uscite molto lunghe come le Randonnés. L'utilizzo delle spugne reticolate offre il massimo del supporto in tutte e tre le posizioni classiche della pedalata: descendendo, salendo e in gara. Tali spugne non solo danno supporto, ma si adattano perfettamente ai movimenti e alle posizioni del ciclista. Questo fondello abbina insieme comfort, anatomia e soprattutto igiene, grazie alla microfibra che lo mantiene asciutto e che conferisce morbidezza. Inoltre, l'inserimento di fili ceramici presenti nel tessuto di copertura del fondello permettono una migliore termoregolazione e microcircolazione garantendo una temperatura più controllata e diminuendo il rossore da frizione.

TECNICITÀ

- Materiali certificati Oeko-tex®
- Fondello anatomico bielastico
- Fibre ceramiche
- Trattamento antibatterico naturale
- Tessuto microfibra idrofilo
- Supporto High Impact foam reticolata
- Leggero
- Alta traspirabilità
- Adatto per lunghissimi percorsi (Randonné)

GRANFONDO PRO MAN 120 Q-SKIN

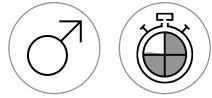

015.100.00764

The Granfondo pad offers a combination of state-of-the-art technology, from high-quality materials to an innovative construction. The padding is manufactured by progressive cutting of a high-density reticulated foam, with different thicknesses based on body weight and pressure points, to ensure maximum support to all bodily contact with the saddle. Besides providing support, the foam also ensures breathability and softness, so that the pad never feels heavy or bulky.

This pad combines hygiene, comfort and anatomical design. The antibacterial treatment ensures hygiene, and the microfiber fabric guarantees softness and moisture control. Moreover, the bio-ceramic fibers in the fabric of the pad touching the skin boosts heat regulation (leaving the skin pleasantly fresh) and microcirculation, hence providing improved temperature control and minimizing chafing.

TECHNICAL FEATURES

- Oeko-tex® certified materials
- Bi-elastic anatomically shaped pad
- Bio-ceramic fibers integrated in the microfiber
- Natural antibacterial treatment
- Backing: reticulated High Impact foam
- Lightweight
- High breathability
- Suitable for long-distance competitive/amateur rides

PERCORSI MISTI 100 MAN

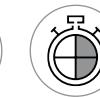

015.100.00765

The Percorsi Misti pad offers a combination of state-of-the-art technology, from high-quality materials to an innovative construction. The padding is manufactured by progressive cutting of a high-density foam, with different thicknesses based on body weight and pressure points, to ensure maximum support to all bodily contact with the saddle. This supportive pad is especially suited for mixed terrain rides, where the athlete often has to get in and out of the saddle.

It combines hygiene, comfort and anatomical design. The antibacterial treatment ensures hygiene, the microfiber fabric guarantees softness, and the structure of the fabric touching the skin provides fast moisture wicking, leaving you feeling dry at all times.

TECHNICAL FEATURES

- Oeko-tex® certified materials
- Bi-elastic anatomically shaped pad
- Structured microfiber tissue
- Natural antibacterial treatment
- Backing: reticulated High Impact foam
- Lightweight
- High breathability
- Suitable for long-distance gravel and mixed terrain rides

PERCORSI MISTI 100 MAN
DENSITY 100 KG/M²
COLOR VIOLA AUBERGINE

Il fondello Percorsi Misti integra un insieme di tecnologie di ultima generazione, dai materiali di utilizzo alla costruzione. L'inserimento dell'imbottitura avviene partendo da un sistema di taglio progressivo di una schiuma reticolata ad altissima densità, modulando lo spessore in base al peso e alla pressione dei vari punti di contatto e garantendo il massimo supporto su tutti i punti di appoggio tra corpo e sella. Il supporto dato da questo fondello si adatta particolarmente a percorsi misti dove il ciclista spesso si solleva dalla sella.

Abbina assieme igiene, confort e anatomia, grazie al trattamento antibatterico, alla microfibra che lo rende morbido e la fa rimanere asciutto. L'inserimento di filato bioceramico presente nel tessuto del fondello a contatto con la pelle consente una migliore termoregolazione e aumenta la micro-circolazione garantendo una temperatura più controllata e diminuendo il rossore da frizione.

TECNICITÀ

- Materiali certificati Oeko-tex®
- Fondello anatomico bielastico
- Tessuto strutturato in microfibra
- Trattamento antibatterico naturale
- Supporto High Impact foam reticolata
- Leggero
- Alta traspirabilità
- Adatto per lunghi percorsi misti/gravel

SERIE 3D M 80 GEL

015.100.00423

Our new pad with composite structure combines hygiene, comfort and anatomical design. The microfiber fabric guarantees hygiene, softness and moisture control. The surface fabric of the pad boosts heat regulation and microcirculation, hence providing improved temperature control and minimizing chafing.

The pad is anatomically shaped, and makes use of high-impact foams, with gel cushioning strategically located at the sit bones, to ensure maximum vibration and shock absorption.

TECHNICAL FEATURES

- Oeko-tex® certified materials
- Bi-elastic anatomically shaped pad
- Natural antibacterial treatment
- Microfiber fabric
- Backing: High Impact foam
- Gel cushioning for the sit bones
- Lightweight
- High breathability
- Suitable for road racing, mountain biking and bicycle tourism

SERIE 2.6 M 8/100 TIGER
DENSITY 100 KG/M²
COLOR BLACK

Ideato e disegnato per l'anatomia maschile, questo fondello è caratterizzato da un'ottima vestibilità, grazie all'elasticità dei materiali utilizzati.

Le qualità idrofile dei componenti consentono un'eccellente traspirabilità e una rapida dissipazione dell'umidità con una conseguente sensazione di freschezza. La parte anteriore allungata permette un comfort superiore e maggior libertà nel movimento.

TECNICITÀ

- Materiali certificati Oeko-tex®
- Fondello anatomico bielastico
- Alta traspirabilità
- Trattamento antibatterico naturale
- Supporto alta densità
- Leggero
- Adatto per percorsi medi road/MTB

4D LADY COMFORT

015.100.00762

Our next-generation Lady Comfort pad is specifically designed to fit a woman's body and is ideal for long distance riding. The use of reticulated foam offers maximum support in all three basic saddle positions: descending, climbing and racing. Besides providing support, the foam suits perfectly all riding movements and positions.

It combines hygiene, comfort and anatomical design. The antibacterial treatment ensures hygiene, the microfiber fabric guarantees comfort and softness, and the structure of the fabric touching the skin provides fast moisture wicking, leaving you feeling fresh at all times.

TECHNICAL FEATURES

- Oeko-tex® certified materials
- Bi-elastic anatomically shaped pad
- Structured microfiber tissue
- Natural antibacterial treatment
- Lightweight
- Suitable for long-distance competitive/amateur rides

NALINI CUSTOM TEAMWEAR

Technical and innovative solutions, essential lines: the Teamwear collection is designed to ensure the best performance on two wheels, without sacrificing comfort and safety.

These garments stand out for their wearability and freedom of movement, thanks to the use of light and adherent fabrics, developed specifically to meet every effort and at the same time guarantee maximum breathability.

The Teamwear collection is a 100% Made in Italy product, created entirely at Moa Sport, which thanks to decades of experience in contact with professional athletes, uses a scrupulous and innovative manufacturing process, with Oeko-Tex certification.

From the competitive cyclist who explicitly seeks a technical and performing line, to those who simply have the passion for two wheels, the three lines **Race**, **Ride** and **Comfort** offer exclusive solutions with three levels of technicality that meet the specific needs of each type of use.

Soluzioni tecniche ed innovative, linee essenziali: la collezione Teamwear è studiata per favorire la migliore performance su due ruote, senza rinunciare a comodità e sicurezza.

Capi che si distinguono per vestibilità e libertà di movimento, grazie all'uso di tessuti leggeri e aderenti, sviluppati specificatamente per assecondare ogni sforzo e allo stesso tempo garantire la massima traspirabilità.

La collezione Teamwear è un prodotto 100% Made in Italy, creato interamente presso Moa Sport, che grazie a decenni di esperienza a contatto con atleti professionisti, si avvale di un processo di lavorazione scrupoloso ed innovativo, con certificazione Oeko-Tex.

Dal ciclista competitivo che cerca esplicitamente una linea tecnica e performante, a chi ha semplicemente la passione per le due ruote, le tre linee **Race**, **Ride** e **Comfort** offrono soluzioni esclusive con tre livelli di tecnicità che rispondono alle esigenze specifiche di ogni tipo di utilizzo.
