THROUGH

NALINI

THIS IS US

At the end of the 1960s Vincenzo Mantovani, a former professional cyclist, founded a craft workshop, which soon turned into an actual factory: MOA Sport.

Over the years Nalini has partnered with the greatest cycling champions and, under the leadership of Vincenzo's brother, Claudio, the company has kept growing and has consolidated its position as one of the leading suppliers to successful brands in the field of international cycling.

MADE IN ITALY

Italian creativity, craftsmanship and expertise are just a few of the strong points at the base of the longevity of NALINI.

EXPERIENCE

Nalini is an industrial company with an experience of over 50 years, which prides itself on its craftsmanship, its high quality and its attention to detail.

TECHNOLOGY

NALINI's highly specialized technicians and designers will guide you step by step through the development process and will use their experience to come up with solutions tailored to your needs.

SUSTAINABILITY

We use the renewable energy that we generate thanks to our photovoltaic panels on top of our buildings. We recycle and give new life to all the wastage resulting from production. For some articles of our collection and those of our clients' we use recycled fabrics and accessories.

DRESS LIKE A PRO

A history of champions.

Giro d'Italia, Tour de France, Vuelta a España are just some of the prestigious competitive races in which Nalini has indirectly participated thanks to the athletes who have chosen to wear Nalini garments.

The freedom of movement, the excellent construction of the garments and, above all, the careful selection of fabrics have a decisive impact on the athletes' performance, enabling them to constantly reach new goals.

SYMBOLS LEGEND

The temperatures are indicative only, as they depend on the athlete's perceived thermal comfort and on the combination of garments worn together.
Le temperature sono puramente indicative: dipendono dalla percezione termica dell'atleta e dalla combinazione degli articoli indossati.

The pictures and descriptions in this catalogue are indicative. Moa Sport reserves the right to modify or improve its products at any moment without prior notice. The colours have been reproduced with the accuracy allowed by the printing process.

UNDERWEAR

WELL BEING ON YOUR SKIN

UNDERWEAR

WOOL LS

03482801100C000.33

The seamless undershirt made from a perfect combination of wool and polyamide. Wool provides warmth and exceptional thermoregulation, making the jersey perfect on colder days. Polyamide provides breathability and ventilation, thus improving the dry feeling on the skin and rapid evaporation of sweat. Maximum fit, freedom of movement and support even during the most intense activities.

TECHNICAL FEATURES:

- Breathable inserts at the most strategic points
- Flatlock seams to eliminate friction and provide greater freedom of movement
- Wool and polyamide for a natural, dry feel against the skin

TECNICITÀ:

- Inserti traspiranti nei punti più strategici
- Cuciture piatte per eliminare attriti e garantire una maggior libertà di movimento
- Lana e poliamide per una sensazione naturale e asciutta sulla pelle

FIT REGULAR
FABRIC LIGHT/MEDIUM
SIZES S - 2XL

4000

SEAMLESS TECH LS

03318501100C000.33

Technical thermal long sleeve base layer with 3D-reinforcements and ventilation lighter areas in strategic points.

The yarn used presents a polyamide component covered with polypropylene on the outside so that polypropylene is at contact with skin and performs its antibacterial properties

TECHNICAL FEATURES:

- Antibacterial properties of polypropylene
- 4-needle flatlock stitching
- Reinforcement areas with a 3D structure

TECNICITÀ:

- Proprietà antibatteriche del polipropilene
- Cuciture piatte di assemblaggio a 4 aghi
- Rinforzi con struttura 3D in alcune aree strategiche

FIT COMFORT
FABRIC POLYAMIDE & POLYPROPYLENE DRYARN®
SIZES S/M - L/XL - XXL

3900 design will be renewed

SEAMLESS TECH SS

03407101100C000.33

Technical and thermal short sleeve base layer with 3D-reinforcements and ventilation lighter areas in strategic points.

The yarn used presents a polyamide component covered with polypropylene Dryarn® on the outside so that polypropylene is at contact with skin and performs its antibacterial properties.

TECHNICAL FEATURES

- Antibacterial properties of polypropylene
- 4-needle flatlock stitching
- Reinforcement areas with a 3D structure

FITTING

The table indicates the correspondence between sizes and the measurements in centimeters of your body.

To determine your size accurately, measurements should be taken without clothes; the tape measure should fit snugly against the skin, without squeezing.

Our size guide considers that the cycling garment should wrap the body pretty closely, if you wish to have a more comfort and loose fit, we suggest to go for a bigger size, especially when your measurement is on the limit of the bigger size and also when the garment is featured as a slim/race fit garment.

La tabella indica la corrispondenza delle taglie con le misure in centimetri del proprio corpo.

Per determinare la taglia con precisione, le misure vanno prese sul corpo nudo; il metro deve aderire perfettamente alla pelle, senza stringere.

Consigliamo di tenere presente l'indicazione rispetto alla vestibilità che trovate indicata nei capi, se il capo è contrassegnato da vestibilità slim e non si desidera un capo ben aderente e teso, consigliamo di passare ad una taglia superiore rispetto a quella corrispondente alle misurazioni.

XRACE

These garments are particularly slim fit, jerseys and jackets are shorter on the frontal part to avoid folded exceeding fabric on belly when on bike.

Questi capi hanno un taglio particolarmente asciutto, maglie e giacche sono più corte nella parte frontale per evitare tessuto piegato in eccesso al ventre del ciclista quando in bici.

RACE

Anatomic and ergonomic-fit garments for demanding cyclists.

Capi con taglio anatomico ed ergonomico per ciclisti esigenti.

REGULAR

Standard-fitting garments with particular focus on comfort.

Capi meno attillati con una particolare attenzione al comfort.

COMFORT

This indication is given on garments that are meant to be more loose and not very close to the body, and on garments that are very stretchy and therefore very adaptable such as the seamless ones.

Questa indicazione è data su capi che sono pensati per una vestibilità morbida non così vicina al corpo del ciclista, e su capi con una tale elasticità che permette grande adattabilità come quelli seamless.

NALINI CUSTOM TEAMWEAR

Technical and innovative solutions, essential lines: the Teamwear collection is designed to ensure the best performance on two wheels, without sacrificing comfort and safety.

These garments stand out for their wearability and freedom of movement, thanks to the use of light and adherent fabrics, developed specifically to meet every effort and at the same time guarantee maximum breathability.

The Teamwear collection is a 100% Made in Italy product, created entirely at Moa Sport, which thanks to decades of experience in contact with professional athletes, uses a scrupulous and innovative manufacturing process, with Oeko-Tex certification.

From the competitive cyclist who explicitly seeks a technical and performing line, to those who simply have the passion for two wheels, the three lines Race, Ride and Comfort offer exclusive solutions with three levels of technicality that meet the specific needs of each type of use.

Soluzioni tecniche ed innovative, linee essenziali: la collezione Teamwear è studiata per favorire la migliore performance su due ruote, senza rinunciare a comodità e sicurezza.

Capi che si distinguono per vestibilità e libertà di movimento, grazie all'uso di tessuti leggeri e aderenti, sviluppati specificatamente per assecondare ogni sforzo e allo stesso tempo garantire la massima traspirabilità.

La collezione Teamwear è un prodotto 100% Made in Italy, creato interamente presso Moa Sport, che grazie a decenni di esperienza a contatto con atleti professionisti, si avvale di un processo di lavorazione scrupoloso ed innovativo, con certificazione Oeko-Tex.

Dal ciclista competitivo che cerca esplicitamente una linea tecnica e performante, a chi ha semplicemente la passione per le due ruote, le tre linee Race, Ride e Comfort offrono soluzioni esclusive con tre livelli di tecnicità che rispondono alle esigenze specifiche di ogni tipo di utilizzo.
