FALL WINTER 2026 | 2027

MADE IN ITALY COLLECTION

YOUR
ATTITUDE

OUR
MISSION

NALINI

THIS IS US

At the end of the 1960s Vincenzo Mantovani, a former professional cyclist, founded a craft workshop, which soon turned into an actual factory: MOA Sport.

Over the years Nalini has partnered with the greatest cycling champions and, under the leadership of Vincenzo's brother, Claudio, the company has kept growing and has consolidated its position as one of the leading suppliers to successful brands in the field of international cycling.

MADE IN ITALY

Italian creativity, craftsmanship and expertise are just a few of the strong points at the base of the longevity of NALINI.

EXPERIENCE

Nalini is an industrial company with an experience of over 50 years, which prides itself on its craftsmanship, its high quality and its attention to detail.

TECHNOLOGY

NALINI's highly specialized technicians and designers will guide you step by step through the development process and will use their experience to come up with solutions tailored to your needs.

SUSTAINABILITY

We use the renewable energy that we generate thanks to our photovoltaic panels on top of our buildings. We recycle and give new life to all the wastage resulting from production. For some articles of our collection and those of our clients' we use recycled fabrics and accessories.

DRESS LIKE A PRO

A history of champions.

Giro d'Italia, Tour de France, Vuelta a España are just some of the prestigious competitive races in which Nalini has indirectly participated thanks to the athletes who have chosen to wear Nalini garments.

The freedom of movement, the excellent construction of the garments and, above all, the careful selection of fabrics have a decisive impact on the athletes' performance, enabling them to constantly reach new goals.

ETHICAL VISION

MOA Sport demonstrates a strong commitment to corporate ethics through its concrete support of the Paralympic world.

By sponsoring the Equa team and partnering with champions such as Andrea Casadei, Ana Maria Vitelaru, and Svetlana Moshkovich, the company not only promotes the values of sport but also fosters inclusion, respect, and determination.

This approach demonstrates Nalini's commitment to investing in projects that foster commitment, resilience, and inclusivity, helping raise awareness of the potential of people with disabilities and the importance of supporting their athletic and personal growth.

Through these sponsorships, Nalini takes an active role in promoting an ethical message that transcends business, emphasizing how social responsibility and attention to people's well-being are fundamental pillars of its corporate identity.

ICEKEY IN CASE OF EMERGENCY

Integrating some of the garments in the collection with a device that provides greater protection for those who pedal goes hand in hand with the constant research and development of new solutions that Nalini deploys as valuable allies for increased safety for its cyclists.

ICE-KEY TAG is a device that, thanks to NFC (Near Field Communication) technology, allows you to keep and have your personal data and medical information with you at all times, which can be viewed by leaning the back of a smartphone against it.

With the ICE KEY TAG application, connected to your device, you can send direct calls and SMS with geographic location to ICE numbers with a simple "click" and you can connect to 112 NUE operations centers. The ICE KEY TAG application allows you to view your documents and alerts you when their expiration date is approaching. If you are abroad, no problem: the information you enter in your profile can be viewed simultaneously translated into 7 languages. You can also enter, edit, delete or consult your information directly from the web, on your ICE-KEY page synchronized with your profile in the ICE-KEY TAG app. Your information will then always be with you, on the Nalini clothing with ICE-KEY TAG. Find out which one these are.

WHERE'S YOUR FINISH LINE?

HP ERGO WARM SUIT

03564001100C000.I0

The HP Ergo Warm Suit is an ergonomic winter suit designed for cyclists who want high performance without compromising on style. Perfect for cold days, it provides medium-high thermal protection thanks to the upper panels in three-layer fabric with an external windproof membrane, which offers an effective barrier against wind and low temperatures. The aerodynamic, slim fit ensures a clean, snug line, ideal for faster rides. The innovative anatomical construction of the shoulders follows the natural movements of the body thanks to the alternation of smooth and embossed fabrics, offering maximum freedom and comfort in every position on the saddle. The horizontal front zip allows you to put on and take off the suit quickly, while the structured fabric on the legs improves performance and gives a distinctive, modern look. The suit is completed by the integrated ICE KEY DEVICE, a digital system that adds a touch of safety and technology to your technical clothing.

TECHNICAL FEATURES:

- Front panel in 3-layer fabric with windproof membrane
- Brushed front panel with adjustable zip opening and flap underneath
- An anatomical shoulder construction that follows the body's natural shape for a complete freedom of movement
- Shaped collar and cuffs for a comfortable, snug fit
- Thermal padding on the shoulders for greater protection and moisture resistance
- Back and leg panels in brushed stretch fabric with WR water-repellent treatment
- Perforated pockets with reflective tabs for ventilation and visibility
- White reflective logos for added safety in low light conditions
- Pre-shaped seat with differentiated support zones in recycled stretch microfibre
- Integrated ICE KEY tag.

TECNICITÀ:

- Parte frontale in tessuto a 3 strati con membrana antivento
- Corpino anteriore garzato con apertura regolabile tramite lampo e patella sottostante
- Costruzione anatomica delle spalle per seguire perfettamente le linee del corpo e garantire una totale libertà di movimento
- Colletto e polsini sagomati per una vestibilità confortevole e aderente
- Termonasature sulle spalle per maggiore protezione e resistenza all'umidità
- Zona dorsale e pannelli delle gambe in tessuto stretch garzato con trattamento idrorepellente WR
- Tasche traforate con alette rifrangenti per ventilazione e visibilità
- Loghi bianchi rifrangenti per maggiore sicurezza in condizioni di scarsa illuminazione
- Fondello preformato con zone a sostegno differenziato in microfibra stretch riciclata
- ICE KEY tag integrato.

HP XWARM JKT

03559401100C000.I0

The HP Xwarm Jkt is the new winter jacket designed to tackle winter outings even in the coldest temperatures. The innovative construction of the shoulders, which follows the natural anatomy of the body, allows for a perfect fit, adapting and accompanying every movement for a feeling of total freedom. The HP Xwarm Jkt is a highly protective jacket that insulates the body from cold, wind and moisture thanks to the use of a three-layer fabric combination. The innermost layer, which is soft, warm and three-dimensional, facilitates the transpiration of sweat to the outside to ensure that the body always stays dry and comfortable. The outer layer, on the other hand, prevents external moisture from entering and protects the body from low temperatures. Internal ventilation is adjustable thanks to zips in the armpit area that allow fresh air to enter and sweat to escape in the areas where it is most needed. The HP Xwarm Jkt is ideal for cycling in temperatures ranging from -3°C to 5°C. The jacket is equipped with the innovative ICE KEY DEVICE safety feature.

TECHNICAL FEATURES:

- Innovative anatomical shoulder construction for a perfect fit and total freedom of movement without restriction
- Ergonomic jacket in 3-layer fabric with external coating and three-dimensional insulating inner layer for optimal thermal protection
- Long divisible zip with internal windproof flap for maximum protection and practicality
- Two adjustable side openings with zips for customisable ventilation during activity
- High-visibility reflective logos for greater safety in the evening or in low light conditions
- Side panels in embossed stretch fabric, which improve the elasticity and ergonomics of the garment
- Silicone gripper elastic at the bottom of the jacket for perfect stability in the saddle
- Equipped with ICE KEY tag, a digital device for cyclist safety.

TECNICITÀ:

- Innovativa costruzione anatomica delle spalle per una perfetta aderenza al corpo e una totale libertà di movimento, senza costrizioni
- Giacca ergonomica in tessuto a 3 strati con spalmatura esterna e strato interno tridimensionale isolante per una protezione termica ottimale
- Lampo lunga divisibile con flap interno antivento per massima protezione e praticità
- Due aperture laterali con zip regolabili per una ventilazione personalizzabile durante l'attività
- Loghi rifrangenti ad alta visibilità, per maggiore sicurezza nelle ore serali o con scarsa illuminazione
- Pannelli laterali in tessuto stretch goffrato, che migliorano l'elasticità e l'ergonomia del capo
- Elastico grippante con silicone al fondo giacca per una perfetta stabilità in sella
- Dotata di ICE KEY tag, dispositivo digitale per la sicurezza del ciclista.

HP ERGO LIGHT WARM JACKET

03387901100C000.10

The HP Ergo Light Warm Jacket is the ideal garment for days with unpredictable weather. Lightweight yet highly protective against moisture and wind thanks to its breathable membrane, it is perfect for both milder winter days and mid-season outings. The elastic fabric allows maximum freedom of movement and guarantees better breathability. Ideal worn as a single layer on less cold days, it is also perfect when paired with a warmer jumper for winter outings on days with harsh weather. The jacket is equipped with the new ICE KEY DEVICE safety system.

TECHNICAL FEATURES:

- Medium-weight long-sleeved jacket, ideal for mid-season wear, with windproof and rainproof membrane for effective protection in variable weather conditions
- Brushed inner fabric ensures thermal comfort and softness against the skin
- Long concealed YKK® zip with internal windproof flap for secure closure and maximum protection from the elements.
- Elasticated gripper at the bottom of the jacket for a stable and snug fit when cycling
- Reflective piping on the rear elasticated hem and reflective logos on the front and back for greater visibility in low light conditions
- Equipped with ICE KEY tag, an integrated digital device for cyclist safety.

TECNICITÀ:

- Giacca di medio peso a manica lunga, ideale per la stagione intermedia, con membrana antivento e antipioggia per una protezione efficace in condizioni meteo variabili
- Tessuto interno garzato che garantisce comfort termico e morbidezza a contatto con la pelle
- Lampo lunga nascosta YKK® con flap interno antivento per una chiusura sicura e massima protezione dagli agenti esterni
- Elastico grippante al fondo giacca per una vestibilità stabile e aderente in posizione di pedalata
- Piping rifrangente sull'elastico posteriore al fondo e loghi rifrangenti anteriori e posteriori per una maggiore visibilità in condizioni di scarsa illuminazione
- Dotata di ICE KEY tag, dispositivo digitale integrato per la sicurezza del ciclista.

MISURINA LIGHT SS

03477301100C000.I0

Misurina Light SS is a short-sleeved jersey/jacket designed for winter days with unstable weather, when rain, wind and sudden changes in temperature require a versatile technical garment. Made from an extremely elastic and breathable fabric, it features an inner layer with a waterproof and windproof membrane that provides effective protection from the elements, while maintaining lightness and thermal comfort. On the back, two openings with an external protective flap and internal mesh promote ventilation and rapid sweat dispersion, ensuring quick drying and constant comfort during activity. Perfect for cyclists looking for a high-performance technical jersey that can adapt to all conditions without sacrificing freedom of movement and essential style.

TECHNICAL FEATURES:

- Short-sleeved thermal jersey with windproof and rainproof outer membrane for optimal protection on cold and wet days
- Thermal, fleece-lined upper section for comfort and insulation while maintaining high breathability
- Long concealed YKK® zip with internal windproof flap for a secure closure and effective protection from the elements
- Elasticated hem with silicone gripper for a perfect fit and stability while cycling
- Laser-cut cuff in 2.5-layer water-repellent stretch fabric for a precise fit and an additional barrier against rain and wind
- Three expandable rear pockets with reflective piping, designed for practicality and safety on the road
- High-visibility white reflective logos for added safety even in low light conditions.

TECNICITÀ:

- Maglia termica a maniche corte realizzata con membrana esterna antivento e antipioggia, per garantire protezione ottimale nelle giornate fredde e umide
- Tessuto termico e felpato nella parte superiore, che assicura comfort e isolamento mantenendo al contempo un'elevata traspirabilità
- Lampo lunga nascosta YKK® con flap interno antivento per una chiusura stabile e protezione efficace dagli agenti atmosferici
- Elastico con silicone grippante al fondo maglia per una perfetta aderenza e stabilità durante la pedalata
- Polsino tagliato a laser in tessuto idrorepellente stretch a 2,5 strati, per una vestibilità precisa e una barriera aggiuntiva contro la pioggia e il vento
- Tre tasche posteriori espandibili con profili riflettenti, pensate per praticità e sicurezza su strada
- Loghi bianchi rifrangenti ad alta visibilità per una maggiore sicurezza anche in condizioni di luce ridotta.

ERGO XWARM JERSEY

03563501100C000.I0

The Ergo XWarm Jersey is an ergonomic winter jersey designed for cyclists who want high performance without compromising on style. The thermal fabric used for the body is highly elasticated and fleecy, offering exceptional softness and comfort. The sleeves, made from a structured fabric with a 3D surface, are water-repellent and designed to ensure better aerodynamics. Thanks to this combination, the jersey is ideal both as an outer layer on milder days and paired with a gilet on colder days. The cuff construction, made from laser-cut stretch fabric, eliminates unnecessary bulk under the glove, ensuring a clean and comfortable fit. The aerodynamic, slim fit ensures a clean, snug line, ideal for faster rides. The innovative anatomical construction of the shoulders follows the natural movements of the body thanks to the alternation of smooth and embossed fabrics, offering maximum freedom and comfort in every position on the saddle. The jacket is completed by the integrated ICE KEY DEVICE, a digital system that adds a touch of safety and technology to your technical clothing.

TECHNICAL FEATURES:

- Long-sleeved thermal shirt ideal for cold seasons
- Brushed thermal fabric with textured structure on the sleeves for maximum insulation and comfort
- Anatomical shoulder construction to perfectly follow the body's movements and ensure total freedom of movement
- Long YKK® zip closure with cam lock pull tab and windproof flap along the entire length
- Jersey bottom with internal elastic and gripping silicone insert for a perfect fit
- Raw-cut cuffs in shuttle fabric for a clean and comfortable fit
- Three back pockets with reflective piping for increased visibility in low light conditions
- Front and back logos made with high-visibility reflective transfer
- Upper and lower zip garage to protect the fabric and increase comfort.

TECNICITÀ:

- Maglia termica a manica lunga ideale per le stagioni fredde
- Tessuto garzato termico con struttura texturizzata sulle maniche per massimo isolamento e comfort
- Costruzione anatomica delle spalle per seguire perfettamente le linee del corpo e garantire una totale libertà di movimento
- Chiusura con lampo lunga YKK® dotata di tiretto cam lock e patella antivento su tutta la lunghezza
- Fondo maglia con elastico interno e inserto in silicone grippante per una perfetta aderenza
- Polsini con taglio al vivo in tessuto navetta per una vestibilità pulita e confortevole
- Tre tasche posteriori con piping rifrangente per maggiore visibilità in condizioni di scarsa luminosità
- Loghi anteriori e posteriori realizzati con transfer reflex ad alta visibilità
- Zip garage superiore e inferiore per proteggere il tessuto e aumentare il comfort.

ERGO BIB TIGHT

03562201100C000.I0

Ergo Bib Tight is an ergonomic bib made from 3D textured fabric, which guarantees thermal protection, comfort and high visibility. The fabric has a long-lasting water-repellent treatment that makes it particularly suitable for damp winter days. The high-visibility inserts on both calves are also functional on winter days with poor visibility. It is fully assembled with flat seams and features a top-of-the-range thermoformed chamois with high-density foam and differentiated thickness

TECHNICAL FEATURES:

- Thermal stretch fabric with hexagonal outer structure for optimal comfort and insulation
- High-visibility reflective inserts on both calves for greater safety on the road
- DWR (durable water repellent) treatment for protection from light rain and dirt
- Thermal mesh body with micro-holes and structural opening to maximise breathability
- Silver reflective logos for visibility even in low light conditions
- Seamless chamois with high-density mesh padding, differentiated support zones and bioceramic stretch fabric for superior comfort and performance.

TECNICITÀ:

- Tessuto termico stretch con struttura esterna ad esagono per comfort e isolamento ottimali
- Inserti reflex ad alta visibilità su entrambi i polpacci per una maggiore sicurezza su strada
- Trattamento DWR (idrorepellente a lunga durata) per protezione da pioggia leggera e sporco
- Corpino in rete termica con microfori e apertura strutturale per massimizzare la traspirazione
- Loghi silver reflex per visibilità anche in condizioni di scarsa illuminazione
- Fondello senza cuciture con spugne reticolate ad alta densità, zone a sostegno differenziato e tessuto stretch bioceramico per comfort e prestazioni superiori.

VENTURES

GET LOST TO FIND YOURSELF

HP EMBOSSED JACKET

03391801100C000.10

The HP Embossed Jacket is a highly technical jacket designed for cyclists who want a sporty look and unique style. The exclusive embossed design in the padded central section provides thermal insulation, wind protection and an elegant design for a technical garment that can also be worn as a sports jacket. The HP Embossed Jacket is made with double-layer fabric with a warm and comfortable wadding interior and a water-repellent exterior to protect against rain and humidity, so it can be worn even on the coldest days. The front is made of padded fabric, while the back is made of comfortable stretch fabric for maximum fit even when riding. The high collar, lined with warm fleece, is essential for high protection even in the coldest temperatures. The jacket's construction guarantees total freedom of movement, comfort and thermoregulation without sacrificing a cool and fresh look. The HP Embossed Jacket is equipped with the innovative ICE KEY DEVICE safety device.

TECHNICAL FEATURES:

- Jacket made from thermal fabric shaped at the front and on the yoke to ensure insulation and an ergonomic fit
- Sleeves and back in comfortable stretch fabric with DWR water-repellent treatment to protect from the climate elements and also with great breathability
- Collar with brushed inner layer for greater thermal comfort
- Long divisible zip with internal windproof flap for a stable and protective closure
- Side pocket with vertical zip in water-repellent fabric
- Jacket bottom with internal elastic and gripping silicone insert for a perfect fit
- Reflective patch on the central back pocket designed for light insertion
- Integrated ICE KEY tag.

TECNICITÀ:

- Giacca realizzata in tessuto termico sagomato sul davanti e sul carré per garantire isolamento e vestibilità ergonomica
- Maniche in tessuto termico garzato con trattamento idrorepellente DWR
- Schiena in tessuto comfort stretch con trattamento water repellent per traspirabilità e protezione dalle intemperie
- Collo con strato interno garzato per maggiore comfort termico
- Lampo lunga divisibile con flap interno antivento per una chiusura stabile e protettiva
- Tasca laterale con zip verticale in tessuto idrorepellente
- Fondo giacca con elastico interno e inserto in silicone grippante per una perfetta aderenza
- Patch rifrangente sulla tasca posteriore centrale predisposta per l'inserimento della luce
- ICE KEY tag integrato.

COLEOTTERO JACKET

03470501100C000.I0

Coleottero Jacket is a uniquely designed jacket for cyclists who want to stand out even when riding. Made from highly reflective, iridescent fabric, it guarantees an inimitable look but above all offers maximum visibility even on less sunny days. The outer layer is made with a DWR (Durable Water Repellent) coating to withstand rain and humidity and is made of lightweight, stretch fabric for a comfortable fit and total freedom of movement for the shoulders and arms. Ideal for mid-season rides, it is perfect for pairing with base layers and a jersey when the weather gets colder. The mesh back pockets ensure the garment is lightweight and aerodynamic.

TECHNICAL FEATURES:

- Main fabric: highly reflective and iridescent material for optimal visibility in all light conditions
- Sleeves: made from soft, stretchy fabric to ensure freedom of movement and comfort while cycling
- Front closure: long divisible zip with internal windproof flap, which effectively protects against the cold
- Back pockets: made from lightweight mesh, ideal for ensuring breathability and storing small items
- Bottom finish: gripping elastic with silicone for a perfect fit and stability when moving.

TECNICITÀ:

- Tessuto principale: materiale altamente rinfrangente e cangiante, per una visibilità ottimale in ogni condizione di luce
- Maniche: realizzate in tessuto morbido ed elasticizzato per garantire libertà di movimento e comfort durante la pedalata
- Chiusura frontale: lampo lunga divisibile con flap interno antivento, che protegge efficacemente dal freddo
- Tasche posteriori: in rete leggera, ideali per garantire traspirabilità e contenere piccoli oggetti
- Finitura al fondo: elastico grippante con silicone per una perfetta aderenza al corpo e stabilità in movimento.

HP EMBOSSED VEST

03391601100C000.10

The HP Embossed Vest is the ideal mid-weight vest for winter rides on milder days. The exclusive embossed design on the padded front provides thermal insulation and wind protection, combining technical functionality with aesthetic elegance. Thanks to its clean, modern style, it can also be worn as a casual sports jacket off the bike. The stretch fabric on the back panel improves breathability, promotes an ergonomic fit and ensures optimal freedom of movement while cycling. The vest is also equipped with the new ICE KEY DEVICE, which adds an extra level of safety during rides.

TECHNICAL FEATURES:

- Windproof, thermal and shaped fabric for the front and yoke
- Comfort stretch fabric back insert for maximum breathability and elasticity
- Rear panel dedicated to the pocket area
- Long YKK® zip with internal windproof flap
- Three spacious rear pockets
- External elastic at the bottom with silicone
- Patch on the central rear pocket for light insertion
- ICE KEY tag.

TECNICITÀ:

- Tessuto antivento, termico e sagomato per la parte anteriore e carrè
- Inserto schiena in tessuto comfort stretch per massima traspirazione ed elasticità
- Pannello posteriore dedicato alla zona tasche
- Lampo lunga YKK® con flap interno antivento
- Tre capienti tasche posteriori
- Elastico esterno al fondo con silicone
- Patch su tasca centrale posteriore per inserimento luce
- ICE KEY tag.

NEW SOFT WRAP LS JERSEY

03489101100C000.10

New Soft Warp LS Jersey is a warm and soft jersey, perfect for cold winter days, to be worn under a windbreaker or paired with a vest. Made of stretchy, soft and warm fabric, it offers unique comfort and fit and is ideal not only under a jacket but also as an outer layer for milder winter days and long rides in mid-seasons. Made from pre-dyed fabric, it comes in a wide range of colours to match any outfit perfectly.

TECHNICAL FEATURES:

- Comfort stretch fabric for a snug fit and freedom of movement
- Long YKK® zip with cam lock pull tab and internal windproof flap
- Three rear pockets with reflective piping for increased visibility
- Reflective logos for added safety in low light conditions
- Gripper elastic at the bottom of the jersey for optimal hold while cycling.

TECNICITÀ:

- Tessuto comfort stretch per una vestibilità aderente e libertà di movimento
- Lampo lunga a vista YKK® con tiretto cam lock e flap interno antivento
- Tre tasche posteriori con piping rifrangente per maggiore visibilità
- Loghi rifrangenti per una sicurezza aggiuntiva in condizioni di scarsa illuminazione

POCKETS BIB TIGHT

03563301100C000.10

Pocket Bib Tight offer maximum comfort and protection during rides in variable weather conditions. A distinctive feature is the total freedom of movement achieved thanks to the fully assembled flatlock seams, which prevent irritation and chafing during activity. Made from thermal stretch fabric, they guarantee excellent thermoregulation, keeping the body warm even on the coldest days. Thanks to the DWR (Durable Water Repellent) treatment, it offers protection against moisture and rain, while ensuring optimal breathability to prevent sweat build-up. Pocket Bib Tights feature two practical pockets on the legs, ideal for storing small personal items, and a warm mesh panel on the upper back that ensures stability and comfort even during the longest rides. The thermoformed chamois with high-density and differentiated foams distributes pressure evenly, offering optimal support even during the most demanding rides. The recycled stretch fabric lining emphasises the focus on sustainability without compromising performance. Made in the coolest colours, Pocket Bib Tight combines style, functionality and innovation to meet the needs of cyclists of all levels.

TECHNICAL FEATURES:

- Stretch thermal fabric that ensures freedom of movement and optimal protection from the cold
- Trendy colours for a modern style even on the saddle
- Two side gravel mesh pockets, practical for storing gels, bars or small accessories
- DWR (Durable Water Repellent) treatment to withstand light rain and dirt
- Thermal mesh body for breathability and comfort.
- White reflective logos for increased visibility in low light conditions
- Pre-shaped technical seat pad, seamless, with high-density foam and differentiated support zones that reduce vibrations
- Recycled stretch fabric lining, breathable and eco-friendly.

TECNICITÀ:

- Tessuto termico stretch che assicura libertà di movimento e una protezione ottimale dal freddo
- Colori di tendenza, per uno stile moderno anche in sella
- Due tasche laterali gravel in rete, pratiche per riporre gel, barrette o piccoli accessori
- Trattamento DWR (Durable Water Repellent) per resistere a pioggia leggera e sporco
- Corpino in rete termica per favorire la traspirazione e il comfort.
- Loghi bianchi reflex, per una maggiore visibilità in condizioni di scarsa luminosità
- Fondello tecnico preformato, privo di cuciture, con spugne ad alta densità e zone a sostegno differenziato che riducono le vibrazioni
- Rivestimento in tessuto stretch riciclato, traspirante ed ecocompatibile.

TRENDY BIB TIGHT

03555901100C000.I0

Trendy Bib Tight are ideal for riding on milder winter days and in mid-seasons. Made from compact, durable double-knit fabric, they offer good protection from wind and moisture while remaining lightweight and breathable to ensure thermal comfort when temperatures are not yet freezing. The two large mesh side pockets allow you to easily store small items during longer rides, ensuring practicality and functionality. The white reflective logos increase visibility and safety in low light conditions. The back panel is lightweight and highly breathable, while the structured, compact elasticated braces provide stability and support while cycling. The pad, with high-density foam and differentiated support zones, covered in recycled stretch fabric, ensures prolonged comfort even over long distances and on the most uneven terrain.

TECHNICAL FEATURES:

- Compact and durable double-knit fabric
- Good protection from wind and moisture
- Lightweight and breathable for optimal thermal comfort
- Two side mesh pockets
- Reflective white logos for increased visibility
- Lightweight and breathable back panel
- Structured and compact elastic braces
- Pre-shaped technical pad with high-density foam
- Differentiated support zones to reduce vibrations
- Recycled stretch fabric lining

TECNICITÀ:

- Tessuto a doppia frontura compatto e resistente
- Buona protezione da vento e umidità
- Leggerezza e traspirabilità per comfort termico ottimale
- Due tasche laterali in rete
- Loghi bianchi rifrangenti per maggiore visibilità
- Corpino posteriore leggero e traspirante
- Bretelle in elastico strutturato e compatto
- Fondello tecnico preformato con schiume ad alta densità

TRENDY BIB SHORT

03429601100C000.10

Trendy Bib Short is the ideal bib short for milder winter days and mid-seasons. Made from double-knit fabric, it is very compact to protect against wind and moisture and lightweight to ensure maximum breathability. With two large mesh gravel pockets on the sides, it is ideal for longer rides. The white logos are reflective to ensure visibility. The back panel is lightweight and highly breathable, while the braces are made from highly structured and compact elastic. It features a high-density foam pad with differentiated support zones and recycled stretch fabric coverage, ideal for long gravel rides even on very rocky and uneven terrain.

TECHNICAL FEATURES:

- Compact, non-brushed fabric bib
- Two practical mesh gravel pockets on the legs
- Breathable mesh bodice for ventilation
- Compact, structured elastic braces for stability and support while cycling
- White reflective logos for improved visibility
- Pre-shaped, seamless technical pad with high-density foam and differentiated support zones that protect against vibrations, with recycled stretch fabric cover.

TECNICITÀ:

- Bib in tessuto compatto e non garzato
- Due pratiche tasche gravel in rete sulle gambe
- Corpino in rete traspirante per favorire la ventilazione
- Bretelle in elastico compatto e strutturato per stabilità e sostegno durante la pedalata
- Loghi bianchi reflex per una migliore visibilità
- Fondello tecnico preformato, privo di cuciture, con spugne ad alta densità e zone a sostegno differenziato che proteggono dalle vibrazioni, con copertura in tessuto stretch riciclato.

TEXAS VEST

03335901100C000.10

Texas Vest is a lightweight, protective technical vest, ideal for comfortable cycling in windy and variable conditions. Made from windstopper fabric, it offers excellent wind protection while maintaining excellent breathability thanks to its mesh back. The YKK® two-way zip allows for easy ventilation adjustment, while the side openings allow quick access to jersey pockets. The garment is completed by a reflective logo for increased visibility and a silicone elasticated hem that ensures a stable fit. Available in a range of colours, it is the perfect choice for those seeking performance and practicality on every ride.

TECHNICAL FEATURES:

- Windstopper fabric for effective wind protection
- Mesh back for maximum breathability and elasticity
- Two-way YKK® zip for adjustable ventilation from top and bottom
- Side openings for quick access to the pockets of the jersey underneath
- Reflective logo for better visibility on the road
- Collar with elastic insert that seals the neck to prevent air infiltration
- Silicone elasticated hem for a stable and snug fit
- Available in a wide range of colours, ideal for coordinating with any outfit.

TECNICITÀ:

- Tessuto windstopper per una protezione efficace dal vento
- Retro in rete per massima traspirabilità ed elasticità
- Cerniera YKK® a due vie per una ventilazione regolabile dall'alto e dal basso
- Aperture laterali per accesso rapido alle tasche della maglia sottostante
- Logo riflettente per una migliore visibilità su strada
- Colletto con inserto elastico che sigilla il collo evitando infiltrazioni d'aria
- Fondo con elastico in silicone per una vestibilità stabile e aderente
- Disponibile in ampia gamma di colori, ideale per coordinarsi con ogni outfit.

PURE ROAD JACKET

03484901100C000.10

Pure Road JKT is the perfect jacket for tackling the harshest winter temperatures.

It is made from a three-layer fabric with strategic DWR (Durable Water Repellent) coating on the outer layer to insulate the body from water and moisture, while the textured inner layer provides exceptional breathability, allowing sweat to escape and keeping you feeling dry at all times.

Stretch fabrics inserted in strategic areas combine excellent protection from the elements with unique breathability and fit.

A sporty, minimalist design makes the Pure Road JKT the perfect winter jacket to define any outfit.

TECHNICAL FEATURES:

- 3-layer stretch fabric with DWR coating for protection from wind and light rain
- Stretch fabric inserts on the side panels and under the arms for greater freedom of movement
- Ergonomic cut for a precise and comfortable fit
- Long YKK® reverse zip with internal windproof flap and zip garage
- Three rear pockets with piping and reflective logo for visibility in low light conditions
- Internal elastic grip at the bottom of the jacket for optimal hold while cycling.

TECNICITÀ:

- Tessuto stretch a 3 strati con spalmatura DWR per protezione da vento e pioggia leggera
- Inserti in tessuto stretch alle bande laterali e sotto manica per una migliore libertà di movimento
- Taglio giro ergonomico per una vestibilità precisa e confortevole
- Lampo lunga rovescia YKK® con patella interna antivento e zip garage
- Tre tasche posteriori con piping e logo rifrangente per visibilità in condizioni di scarsa luce
- Elastico interno grippante al fondo giacca per una tenuta ottimale durante la pedalata.

STRIPES JACKET

03554901100C000.10

The Stripes Jacket is a lightweight, high-performance thermal jacket designed for winter outings on the coldest days. Made from a three-layer fabric with a protective membrane and DWR (Durable Water Repellent) treatment, it provides excellent thermal protection and resistance to wind and moisture. The sleeves, a distinctive feature of the garment, are made from aerodynamic striped fabric that promotes airflow, reducing friction and improving efficiency while cycling. The unique structure of the material also offers greater elasticity and freedom of movement, ensuring comfort and consistent performance. The stretch fabric of the body ensures a snug fit and stability, following the cyclist's posture without restricting movement.

TECHNICAL FEATURES:

- Three-layer fabric with protective membrane and DWR (Durable Water Repellent) treatment for effective wind and moisture barrier
- Excellent thermal protection and optimal comfort even during the coldest winter rides
- Sleeves in aerodynamic ribbed fabric that promote air flow and reduce aerodynamic drag
- Stretch fabric construction for greater freedom of movement and a stable fit
- Stretch fabric body that follows the cyclist's posture, ensuring a snug fit and stability in the saddle
- Long YKK® zip with internal windproof flap for a secure and protective closure
- Reflective details for optimal visibility in low light conditions
- Silicone gripper at the bottom of the jacket for a perfect fit.

TECNICITÀ:

- Tessuto a tre strati con membrana protettiva e trattamento DWR (Durable Water Repellent) per una barriera efficace contro vento e umidità
- Eccellente protezione termica e comfort ottimale anche durante le uscite invernali più fredde
- Maniche in tessuto rigato aerodinamico che favoriscono lo scorrimento dell'aria e riducono la resistenza aerodinamica
- Struttura del tessuto elastica per una maggiore libertà di movimento e una vestibilità sempre stabile
- Corpo in tessuto elasticizzato che segue la postura del ciclista, assicurando aderenza e stabilità in sella
- Lampo lunga divisibile YKK® con flap interno antivento per una chiusura sicura e protettiva
- Dettagli rifrangenti per una visibilità ottimale in condizioni di luce ridotta
- Elastico grippante con silicone al fondo giacca per una vestibilità perfetta.

MORTIROLO LS JERSEY

03555101100C000.I0

The Mortirolo LS Jersey is a warm and comfortable jersey for cycling on the coldest days and in the harshest temperatures. Made from thick, warm fabric on the inside, the Mortirolo LS Jersey offers perfect thermoregulation and breathability, keeping you warm and dry even in low temperatures. The Mortirolo LS Jersey is incredibly elastic and soft, offering unique comfort and exceptional fit: the perfect jersey for those who don't want to give up cycling even in the middle of winter. The sleeves are made of cleancat striped fabric, which reduces air friction and ensures maximum aerodynamics. The design with a large Nalini logo on both the front and back and bright colours make the Mortirolo LS Jersey ideal for damp, foggy days with poor visibility.

TECHNICAL FEATURES:

- Warm fabric with brushed interior for optimal thermal insulation
- High breathability and perfect thermoregulation to keep the body dry even during exertion
- Exceptional elasticity and softness for a comfortable, high-performance fit
- Ergonomic design that follows the cyclist's posture, ensuring freedom of movement
- Large Nalini logo on the front and back for a distinctive look.
- Bright colours and reflective details for greater visibility and safety on the road
- Long YKK® zip with windproof flap (optional depending on model)
- Elasticated silicone gripper at the bottom of the jersey for stability while cycling.

TECNICITÀ:

- Tessuto caldo e garzato internamente per un isolamento termico ottimale
- Elevata traspirabilità e perfetta termoregolazione, per mantenere il corpo asciutto anche durante lo sforzo
- Elasticità e morbidezza eccezionali per una vestibilità comoda e performante
- Design ergonomico che segue la postura del ciclista, assicurando libertà di movimento
- Logo Nalini grande su fronte e retro per un look distintivo
- Colori accesi e dettagli rifrangenti per una maggiore visibilità e sicurezza su strada
- Lampo lunga YKK® con flap antivento (opzionale a seconda del modello)
- Elastico con silicone grippante al fondo maglia per stabilità durante la pedalata.

MID LS MESH JERSEY

03555801100C000.10

The Mid LS Mesh Jersey is the perfect jersey for cyclists who want high performance even on the coldest winter rides and don't want to compromise on style. Available in four colours to match any outfit, the Mid LS Mesh Jersey is made using a special 3D mesh fabric for the sleeves to reduce air friction and give the garment exceptional aerodynamics. The body is made from extremely compact fabric, making the jersey perfectly windproof: ideal for wearing on its own during mid-season rides or under a jacket on the coldest winter days.

TECHNICAL FEATURES:

- 3D fabric sleeves for greater aerodynamics and reduced air friction
- Compact fabric body with windproof and thermal effect, perfect for winter or mid-season rides
- High breathability and thermal comfort to maintain a stable body temperature
- Ergonomic and snug fit, designed to follow the natural movements of the cyclist
- Available in four colour options for a technical and personalised look
- Long YKK® zip with internal windproof flap for a protective closure
- Elasticated gripper at the bottom of the jersey for a stable fit while cycling
- Reflective details for greater visibility on the road.

TECNICITÀ:

- Maniche in tessuto 3D per una maggiore aerodinamicità e riduzione dell'attrito dell'aria
- Corpo in tessuto compatto con effetto antivento e termico, perfetto per uscite invernali o di mezza stagione
- Elevata traspirabilità e comfort termico per mantenere la temperatura corporea stabile
- Design ergonomico e aderente, studiato per seguire i movimenti naturali del ciclista
- Disponibile in quattro varianti colore, per un look tecnico e personalizzato
- Lampo lunga YKK® con flap interno antivento per una chiusura protettiva
- Elastico grippante al fondo maglia per una vestibilità stabile durante la pedalata
- Dettagli rifrangenti per una maggiore visibilità su strada.

TIE DYE LS JERSEY

03572401100C000.I0

Tie Dye LS Jersey is a long-sleeved jersey designed for cyclists who want to stand out with a unique and inimitable style. The special dyeing technique gives the fabric unique shades and shadows, making each garment an exclusive piece. Made from compact, compressive fabric, the jersey offers excellent ergonomic fit, making it perfect for sunny winter days and ideal for use in mid-season. The combination of technical functionality and exclusive design makes the Tie Dye LS Jersey a distinctive garment, suitable for those who do not want to go unnoticed during their bike rides.

TECHNICAL FEATURES:

- Compact, compressive fabric for a snug, high-performance fit
- Colour bath dyeing technique creates unique shades and tones on each garment
- Wind protection and natural thermoregulation, ideal for mid-seasons and sunny winter days
- Excellent breathability and prolonged comfort even during the most intense rides
- Ergonomic design that follows the cyclist's posture, ensuring freedom of movement
- Long YKK® zip with internal windproof flap for added protection.
- Elasticated silicone gripper at the bottom of the jersey for perfect stability in the saddle
- Reflective details for optimal visibility in low light conditions.

TECNICITÀ:

- Tessuto compatto e compressivo per una vestibilità aderente e performante
- Tecnica di tintura a bagno di colore che crea sfumature e tonalità uniche su ogni capo
- Protezione dal vento e termoregolazione naturale, ideali per le mezze stagioni e le giornate invernali soleggiate
- Ottima traspirabilità e comfort prolungato anche durante le uscite più intense
- Design ergonomico che segue la postura del ciclista, garantendo libertà di movimento
- Lampo lunga YKK® con flap interno antivento per maggiore protezione
- Elastico con silicone grippante al fondo maglia per una perfetta stabilità in sella
- Dettagli rifrangenti per una visibilità ottimale in condizioni di luce ridotta.

WARM WIND BIB TIGHT

03486801100C000.10

Warm Wind Bib Tight are designed to provide maximum thermal protection and comfort during the coldest winter rides. The front and knee areas are made from a three-layer stretch fabric with a windproof membrane and DWR (Durable Water Repellent) treatment, ensuring high wind resistance and effective protection from light rain and dirt. The back, braces and leg hem are made from highly stretch fabric with DWR treatment to ensure ample freedom of movement, an anatomical fit and optimal breathability. The combination of different materials provides an ideal balance between thermal insulation, elasticity and moisture management, making the garment suitable for prolonged use in cold and variable weather conditions.

TECHNICAL FEATURES:

- 3-layer thermal fabric with windproof membrane and DWR water-repellent treatment on thighs and knees for optimal protection from cold and light rain
- Comfort stretch fabric with DWR on the back, bodice and leg bottoms to ensure breathability and a snug fit
- Anatomical bi-elastic chamois that adapts to the body's shape, offering support on longer rides
- Flat seams to reduce chafing and improve comfort on the skin
- Reflective logos and inserts for greater visibility in low light conditions.

TECNICITÀ:

- Tessuto termico a 3 strati con membrana antivento e trattamento idrorepellente DWR su cosce e ginocchia, per protezione ottimale da freddo e pioggia leggera
- Tessuto comfort stretch con DWR su parte posteriore, corpino e fondo gamba, per garantire traspirabilità e vestibilità aderente
- Fondello anatomico bielastico che si adatta alla morfologia del corpo, offrendo sostegno nelle uscite più lunghe
- Cuciture piatte per ridurre gli sfregamenti e migliorare il comfort sulla pelle
- Loghi e inserti rifrangenti per maggiore visibilità in condizioni di scarsa illuminazione.

NEW IDEALE BIB TIGHT

03416201100C000.I0

New Ideale Bib Tight represent the most advanced evolution in Nalini technical clothing. Made with a minimum number of cuts and seams, they guarantee an ergonomic fit and total freedom of movement. Thanks to the use of latest-generation fabrics and cutting-edge technologies, this garment combines clean aesthetics, functionality and exclusive design. The Super Roubaix fabric ensures excellent thermoregulation and comfort even in the coldest conditions, while the Microfresh fabric upper keeps the body dry and cool at all times, even during the most intense rides.

TECHNICAL FEATURES:

- Super Roubaix fabric tights with high elasticity and thermal insulation, with a clean and essential construction for a technical and comfortable fit
- Microfresh fabric bodice, laser-cut and seamless, to ensure maximum breathability and comfort in contact with the skin
- Tone-on-tone reflective logos, discreet but visible in low light conditions
- Anatomical bi-elastic chamois, designed to adapt to body movements and offer support on longer rides
- Comfort stretch elastic at the bottom of the leg for a better fit without excessive compression.

TECNICITÀ:

- Calzamaglia in tessuto Super Roubaix a elevata elasticità e isolamento termico, con costruzione pulita ed essenziale per una vestibilità tecnica e confortevole
- Corpino in tessuto Microfresh, realizzato con taglio laser e senza cuciture, per garantire massima traspirabilità e comfort a contatto pelle
- Loghi rifrangenti tono su tono, discreti ma visibili in condizioni di scarsa illuminazione
- Fondello anatomico bielastico, progettato per adattarsi ai movimenti del corpo e offrire supporto nelle uscite più lunghe
- Elastico comfort stretch al fondo gamba per una migliore aderenza senza compressioni eccessive.

NEW IDEALE TIGHT

03416401100C000.10

New Ideale Tight is a pair of trousers with a simple, contemporary design, created to offer cyclists maximum comfort and total freedom of movement. The construction, with a minimum number of cuts and seams, guarantees an ergonomic fit and a pleasant second-skin feel. Made from Thermal fabric, they ensure excellent thermoregulation and effective protection on colder days. The clean, sporty design gives the garment a technical and cool look, while the reflective inserts increase visibility and safety even in poor visibility conditions.

TECHNICAL FEATURES:

- Strapless tights with a clean, minimalist design, designed to ensure freedom of movement and practicality
- Superroubaix comfort stretch fabric, warm, soft and elastic, for optimal comfort during physical activity in cold weather
- Reflective logos for greater visibility in low light conditions
- Anatomical bi-elastic chamois, designed to follow the body's shape and offer optimal support while cycling
- Comfort stretch elastic at the bottom of the leg for a stable fit without pressure points.

TECNICITÀ:

- Calzamaglia senza bretelle con design pulito ed essenziale, pensata per garantire libertà di movimento e praticità
- Tessuto Superroubaix comfort stretch, caldo, morbido ed elastico, per un comfort ottimale durante l'attività fisica nelle stagioni fredde
- Loghi rifrangenti per una maggiore visibilità in condizioni di scarsa illuminazione
- Fondello anatomico bielastico, progettato per seguire la morfologia del corpo e offrire supporto ottimale durante la pedalata
- Elastico comfort stretch al fondo gamba, per una tenuta stabile senza punti di pressione.

NEW IDEALE KNICKERS

03416301100C000.10

New Ideale Knickers are bib shorts with a simple, contemporary design, created to offer cyclists maximum comfort and total freedom of movement even on the coldest days. The combination of smooth and textured thermal fabrics guarantees high protection from the cold, while ensuring an ergonomic fit that perfectly follows your movements as you cycle. The clean, refined design gives the garment an elegant, sporty look, combining high technical performance with a cool, trendy style.

TECHNICAL FEATURES:

- ¾ Bermuda shorts with ergonomic construction, designed to ensure an anatomical fit and maximum freedom of movement while cycling
- Comfort stretch fabric, soft and elastic, for ideal support and a feeling of prolonged comfort
- Reflective logos, designed to increase visibility in low light conditions
- Anatomical bi-elastic chamois, which adapts to the body's movements and ensures protection during medium or long rides
- Flat seams, designed to reduce chafing and improve comfort against the skin.

TECNICITÀ:

- Bermuda ¾ con costruzione ergonomica, progettata per garantire una vestibilità anatomica e massima libertà di movimento durante la pedalata
- Tessuto comfort stretch, morbido ed elastico, per un supporto ideale e una sensazione di comfort prolungato.
- Loghi rifrangenti, studiati per aumentare la visibilità in condizioni di luce ridotta
- Fondello anatomico bielastico, che si adatta ai movimenti del corpo e assicura protezione nelle uscite di media o lunga durata
- Cuciture piatte, pensate per ridurre gli sfregamenti e migliorare il comfort a contatto pelle.

NEW IDEALE BIB SHORT

03382501100C000.I0

New Ideale Bib Shorts are thermal shorts designed to provide maximum protection from the cold and damp. Made from warm fabric with a DWR (Durable Water Repellent) treatment, they offer effective protection against rain and damp during the most demanding rides. The bib ensures high support, comfort and total freedom of movement. The upper back in micro-perforated fabric guarantees thermoregulation and breathability, keeping the body dry even during the most intense performances.

TECHNICAL FEATURES:

- Ergonomic construction with DWR water-repellent treatment to ensure protection from splashes and light rain without compromising freedom of movement
- Back panel in comfort stretch fabric, slightly thermal and micro-perforated, designed to offer breathability and support in strategic areas
- Reflective logos for improved visibility in low light conditions
- Microfibre elastic with gripping silicone at the bottom of the leg, for a stable and comfortable fit while cycling
- Anatomical bi-elastic chamois, designed to follow the body's shape and offer comfort even over long distances
- Flat seams, designed to reduce chafing and increase comfort in contact with the skin.

TECNICITÀ:

- Costruzione ergonomica con trattamento idrorepellente DWR, per garantire protezione da spruzzi e pioggia leggera senza compromettere la libertà di movimento
- Pannello posteriore in tessuto comfort stretch, leggermente termico e microperforato, progettato per offrire traspirabilità e supporto nelle zone strategiche
- Loghi rifrangenti per una visibilità migliorata in condizioni di scarsa illuminazione
- Elastico in microfibra con silicone grippante al fondo gamba, per una tenuta stabile e confortevole durante la pedalata
- Fondello anatomico bielastico, studiato per seguire la morfologia del corpo e offrire comfort anche sulle lunghe distanze
- Cuciture piatte, pensate per ridurre gli sfregamenti e aumentare il comfort a contatto pelle.

FULL SEASON

FOR ALL WEATHER CONDITIONS

BREVA WIND JACKET

[03394701100C000.I0](https://www.nalini.com/03394701100C000.I0)

The Breva Wind Jacket is a windproof and waterproof jacket designed to ensure maximum protection and comfort in the most challenging weather conditions. Made entirely from three-layer fabric with a membrane and DWR (Durable Water Repellent) treatment, it guarantees wind and water resistance with a water column of 10,000 mm, while maintaining excellent breathability thanks to ventilation from the inside out. The elasticity of the fabric allows the jacket to mould perfectly to the curves of the body, ensuring a slim and snug fit, while the lightness of the material allows it to be easily removed and stored in the back pocket when not in use. The iridescent colour increases visibility even in low light or bad weather conditions, giving the garment a distinctive and unmistakable style. The jacket is also equipped with the new ICE KEY device, for an extra level of safety when out on the road.

TECHNICAL FEATURES:

- 90 g/m² 3-layer fabric with water-repellent membrane (10,000 mm water column)
- DWR – Durable Water Repellent treatment
- YKK® reverse zip with cam lock pull tab
- Internal wind protection with zip garage
- Comfortable fabric inside collar
- Reflective logos on front and back
- Silicone gripper hem
- Three back pockets
- Integrated ICE KEY tag

TECNICITÀ:

- Tessuto 3 strati da 90 g/m² con membrana idrorepellente (colonna d'acqua 10.000 mm)
- Trattamento DWR – Durable Water Repellent
- Lampo rovescia YKK® con tiretto cam lock
- Protezione interna antivento con zip garage
- Interno collo in tessuto confortevole
- Loghi rifrangenti anteriori e posteriori
- Elastico grippante con silicone al fondo
- Tre tasche posteriori
- ICE KEY tag integrato

SCIROCCO WIND JACKET

033956011000000.10

The Scirocco Wind Jacket is the perfect windbreaker, combining technical protection with Nalini's unique style. Made from windstopper fabric with a micro-pattern, it guarantees total wind protection in the most exposed areas, while the side panels and underarm panels in stretch fabric ensure a slim fit that follows the curves of the body, offering excellent comfort and freedom of movement.

The lightness and softness of the materials make the jacket easy to pack, transforming it into a versatile and indispensable garment for riding in variable weather conditions. A perfect balance of technical functionality, comfort and elegant design, designed for the most demanding cyclists.

TECHNICAL FEATURES:

- Lightweight, packable windproof fabric
- Front zip with extended pull tab with cord and internal windproof flap
- Sides and underarm inserts in lightweight stretch fabric for better ventilation and fit
- High-visibility reflective logos
- Elasticated jacket hem

TECNICITÀ:

- Tessuto antivento leggero e impacchettabile
- Zip anteriore con tiretto prolungato con cordino e con aletta interna antivento
- Fianchi e inserto sottomanica in tessuto leggero stretch per aerazione e migliore vestibilità
- Loghi rifrangenti alta visibilità

BREVA WIND VEST

034510011000000.10

Windproof and water repellent vest entirely made of a three layer fabric with DWR (Durable Water Repellent) treatment. The properties of this fabric are highly technical: protection from wind and water with a 10.000 water column, good breathability from inside towards outside and stretchability, combined to an extremely interesting color iridescent with the double function of and high visibility and stylish look. The stretchability of the fabric allowed to shape the garment in a slim fit that wraps the rider and does not leave any excessive fabric around the body.

The lightness, despite the three layers, gives the possibility to pack it and carry it in a pocket.

TECHNICAL FEATURES:

- 3layer fabric, weight 90 gr/m² with membrane 10.000 water column
- D.W.R. treatment (Durable Water Repellent)
- Reversed full-length cam-lock zipper YKK® with wind flap behind zip and chin guard on top
- Inner collar in comfortable fabric
- Reflective logos in front and back side
- Silicone elastic band at waist
- 3 rear pockets

TECNICITÀ

- Tessuto 3 strati da 90 gr/m² con membrana idrorepellente colonna d'acqua 10.000 mm
- Trattamento D.W.R. (Durable Water Repellent)
- Lampo rovescia YKK® con tiretto cam lock
- Protezione interna antivento con zip garage
- Interno collo in tessuto confortevole
- Logo rifrangente anteriore e posteriore
- Elastico grippante con silicone al fondo
- 3 tasche posteriori

SCIROCCO WIND VEST

03395701100C000.10

Scirocco Wind Vest is the must-have windstopper for tackling the most variable weather. The micro-designed windstopper fabric makes the front and back highly protective and insulating while the stretch fabric side panels allow a unique fit and total freedom of movement. The lightweight fabric allows the vest to be quickly packed up and stored in the pocket ready for every eventuality.

TECHNICAL FEATURES:

- Lightweight, windrestistant, packable
- Front zip with longer cord puller and with windproof storm inside flap
- Stretch side panels and underarm panels for transpiration and better fit
- Reflective logos for high visibility
- Elastic waistband

TECNICITÀ:

- Tessuto antivento leggero e impacchettabile
- Zip anteriore con tiretto prolungato con cordino e con aletta interna antivento
- Fianchi e inserto sottomanica in tessuto leggero stretch per aerazione e migliore vestibilità
- Loghi rifrangenti alta visibilità
- Fondo giacca con elastico

STORM JACKET

03555701100C000.10

Storm Jacket is the new version of Nalini's lightweight, waterproof jacket. Heat-sealed seams and lightweight fabric make the jacket ideal for outings in variable weather.

TECHNICAL FEATURES:

- Water repellent treatment
- Raglan sleeves
- Wind flap behind zip and chin guard on top
- Inner collar in comfortable fabric
- Side pockets inside
- Reflective details at the back
- Waterproof zip with cam-lock puller
- Elastic waistband
- Light water protection

TECNICITÀ:

- Trattamento idrorepellente
- Manica raglan
- Aletta interna antivento con zip garage
- Interno collo in tessuto confortevole
- Taschino interno laterale
- Fettucce rifrangenti posteriori
- Zip anteriore spalmata con tiretto cam lock
- Profilo elastico al fondo
- Leggera protezione dalla pioggia

BAS BRIZA JACKET

03033001100C000.10

The windproof jacket with slim fit and quick packability. Made of stretch fabric for unique comfort and waterproof treatment.

TECHNICAL FEATURES:

- Inserts of mesh in the underarm area and on the inside of back opening for better transpiration
- Lycra elastic binding in contrasting neon yellow
- Reflecting logo and transfer for improved visibility under poor lighting
- Pocket at the inside for packing the jacket, including drawstring and stopper
- Reverse zipper and chinguard

TECNICITÀ:

- Inserti in rete nella zona ascellare e sotto l'apertura sulla schiena per migliore traspirabilità
- Bordatura in lycra a contrasto in giallo fluo
- Logo e transfer rifrangenti per migliorare la visibilità in condizioni di scarsa illuminazione
- Tasca interna per impacchettare la giacca con cordino e ferma cordino
- Zip rovescia e patella sottolampo

FITTING

The table indicates the correspondence between sizes and the measurements in centimeters of your body.

To determine your size accurately, measurements should be taken without clothes; the tape measure should fit snugly against the skin, without squeezing.

Our size guide considers that the cycling garment should wrap the body pretty closely, if you wish to have a more comfort and loose fit, we suggest to go for a bigger size, especially when your measurement is on the limit of the bigger size and also when the garment is featured as a slim/race fit garment.

La tabella indica la corrispondenza delle taglie con le misure in centimetri del proprio corpo.

Per determinare la taglia con precisione, le misure vanno prese sul corpo nudo; il metro deve aderire perfettamente alla pelle, senza stringere.

Consigliamo di tenere presente l'indicazione rispetto alla vestibilità che trovate indicata nei capi, se il capo è contrassegnato da vestibilità slim e non si desidera un capo ben aderente e teso, consigliamo di passare ad una taglia superiore rispetto a quella corrispondente alle misurazioni.

XRACE

These garments are particularly slim fit, jerseys and jackets are shorter on the frontal part to avoid folded exceeding fabric on belly when on bike.

Questi capi hanno un taglio particolarmente asciutto, maglie e giacche sono più corte nella parte frontale per evitare tessuto piegato in eccesso al ventre del ciclista quando in bici.

RACE

Anatomic and ergonomic-fit garments for demanding cyclists.

Capi con taglio anatomico ed ergonomico per ciclisti esigenti.

REGULAR

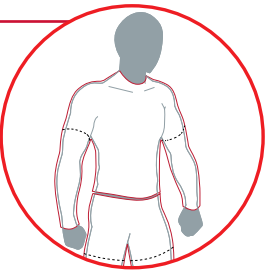

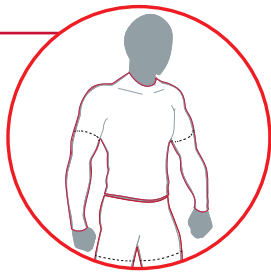

Standard-fitting garments with particular focus on comfort.

Capi meno attillati con una particolare attenzione al comfort.

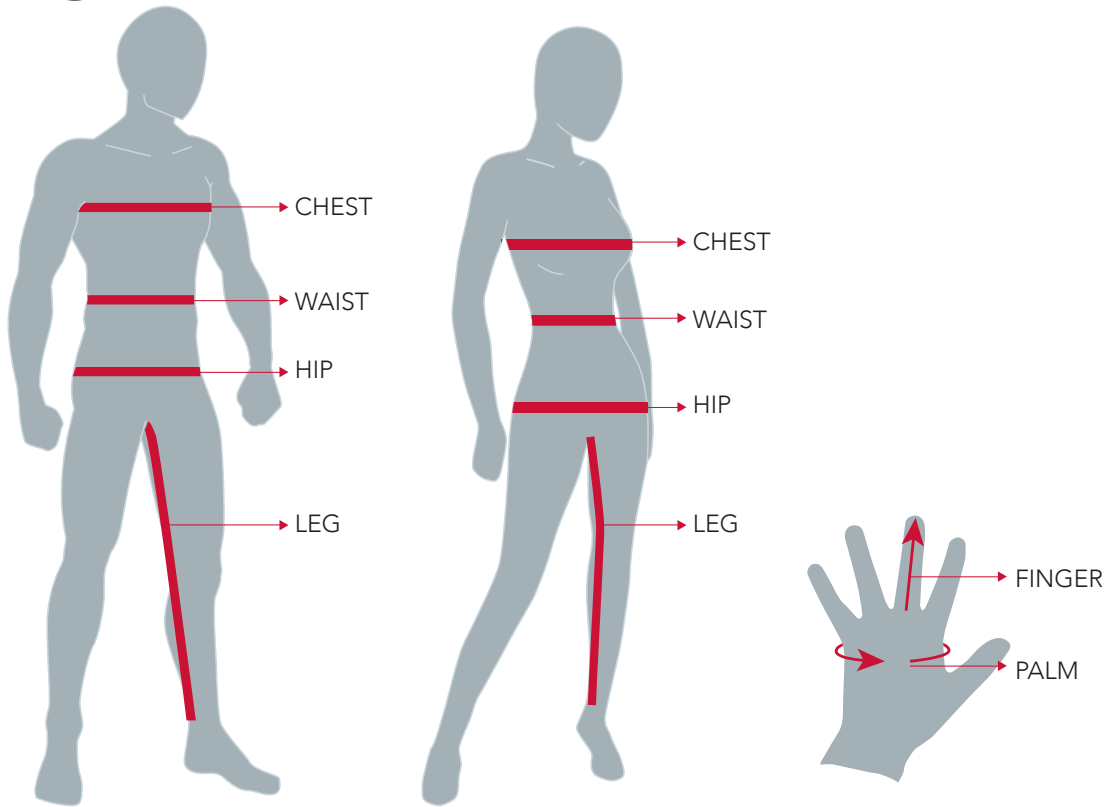

COMFORT

This indication is given on garments that are meant to be more loose and not very close to the body, and on garments that are very stretchy and therefore very adaptable such as the seamless ones.

Questa indicazione è data su capi che sono pensati per una vestibilità morbida non così vicina al corpo del ciclista, e su capi con una tale elasticità che permette grande adattabilità come quelli seamless.

PADS

The Pad has a protective function and therefore it is considered one of the most important contact points between the cyclist and the bicycle.

It is good to keep in mind that little or excessive protection can develop various diseases for the cyclist: from nerve inflammation up to real circulatory problems and complications. You can protect yourself without neglecting comfort and performance! Moa Sport has been among the first to introduce the pad in cycling clothing. Today's know-how of the company is based on almost 50 years of collaboration with professional teams as Banesto, Telecom, Carrera, Mercatone, Movistar, Astana, etc., and their champions as Hindurain, Ulrich, Pantani, Chiappucci, Vinokourov, Valverde, Nibali, Aru and many others. They have contributed with precise indications and feedback to the development of the pad, to make it really functional for protection and performance.

In all these years professional riders have helped Moa Sport to understand how to improve this essential part of the rider's equipment, but also we have learnt how it can be an accessory totally subjective.

For this reason, we have developed pads with different protections, densities, technologies and materials always with a particular attention to details... Because as it is known, they make the difference!

All our pads are produced with Oeko-tex® certified materials. Oeko-tex® is a certification that safeguards users from the presence of dangerous substances in the fabrics. Moreover, our fabrics and foams are all antibacterial, light, breathable, hydrophilic, and soft and they are assembled with modern technology and design.

In the range of the pads branded Nalini/Moa, you will surely find one that suits your saddle and your riding activity.

Per il ruolo protettivo che svolge, il Fondello (anche conosciuto come Pad o Chamois), è tra i punti di contatto tra ciclista e bicicletta, forse il più importante!

È bene tenere presente che, poca o eccessiva protezione possono sviluppare svariate patologie in chi pratica ciclismo: da infiammazioni di natura nervosa fino a veri e propri problemi circolatori con relative complicanze. Proteggersi sì, ma senza trascurare comfort e prestazione! Moa Sport è stata tra i primi ad aver introdotto il fondello nell'abbigliamento tecnico per ciclisti; il know-how dell'azienda è dovuto a quasi 50 anni di collaborazione con Team professionistici come Banesto, Telecom, Carrera, Mercatone, Movistar, Astana, etc., e al dialogo con i campioni che hanno militato in queste squadre: da Hindurain, Ulrich, Pantani, Chiappucci fino ad arrivare ai Vinokourov, Valverde, Nibali, Aru e centinaia di altri grandi atleti che puntuali hanno indirizzato Moa Sport nella creazione di prodotti di altissima qualità, sia per la protezione sia per la performance.

Tutti questi anni al fianco di grandi professionisti hanno aiutato Moa Sport a capire quanto un fondello possa essere indispensabile per praticare ciclismo, ma anche quanto sia un accessorio assolutamente soggettivo.

Per questo motivo sono stati sviluppati fondelli con diverse protezioni, densità, tecnologie e tessuti, sempre con una particolare attenzione ai dettagli... Perché si sa, fanno la differenza!

Tutti i fondelli di Moa Sport sono prodotti con materiali certificati di aziende certificate Oeko-tex®, ente che tutela la qualità dei materiali. Questa prerogativa rende i prodotti eccellenti, per quanto riguarda antibattericità, leggerezza, traspirabilità, idrofilia e morbidezza ma anche per tecnologia e design.

Nella gamma di fondelli firmati Nalini/Moa Sport troverete sicuramente quello adatto alla vostra sella e alla vostra attività sportiva.

RANDONNÉ MAN 2.0

015.100.00918-6000

Randonné 2.0 is the evolution of a very successful and beloved pad of our range: Randonné, a pad, specifically designed for long-distance rides. The use of high density reticulated foams joint to a deeper and more curved preshaping ensures utmost support and comfort in all three basic saddle positions: descending, climbing and racing. The new assembling materials used improve the flexibility so that besides providing support, it also suits all riding movements and positions.

The recycled microfiber fabric used on the top layer is an important effort done in the direction of always more sustainable and green garments. This fabric has property of fast drying keeping the rider dry and has a very soft touch surface which minimizes the risk of chafing.

TECHNICAL FEATURES

- Bi-elastic anatomically pre-shaped pad
- Backing: reticulated high impact foam
- Recycled top layer material
- Hydrophilic microfiber fabrics
- High breathability
- Suitable for long-distance rides (randonnés)

MAN

10 H

RANDONNÉ MAN 2.0
DENSITY 120 KG/M2

Randonnée 2.0 è l'evoluzione del fondello di grandissimo successo e gradimento Randonné. Un fondello studiato specificatamente per uscite molto lunghe, dove all'utilizzo delle spugne reticolate ad alta densità è stata aggiunta una preformatura più curva e profonda.

Offre il massimo del supporto in tutte e tre le posizioni classiche della pedalata: descending, climbing e racing. Nell'assemblaggio sono stati usati materiali più morbidi e flessibili senza nulla sacrificare nel supporto, il risultato è un fondello che si adatta perfettamente ai movimenti e alle posizioni del ciclista, sostenendo il suo corpo e isolandolo dalle pressioni della sella fino ad uscite di anche 10 ore. Randonnée 2.0 oltre a darti comfort, anatomia, igiene, usa anche una microfibra di copertura ottenuta dal riciclo di materiali, quindi ecologico. Mantiene il corpo del ciclista asciutto per le proprietà di asciugatura rapida e al tatto ha grande morbidezza evitando al ciclista problematiche di rossore da frizione.

TECNICITÀ

- Fondello anatomico bielastico preformato
- tessuto di copertura in fibre ottenute dal riciclo
- Imbottitura con spugne alta densità reticolate
- Tessuto microfibra idrofilo ad asciugatura rapida
- Alta traspirabilità
- Adatto per lunghissimi percorsi (randonnés)

GRANFONDO 2.0

015.100.00909-0500

The upgrade of this pad is only on the top material, as Granfondo was a pad that nearly 100 % of the riders found amazing in all points: protection, support, anatomy, softness, flexibility and elasticity.

The padding is manufactured by progressive cutting of a high-density reticulated foam, with different thicknesses based on body weight and pressure points, to ensure maximum support to all points of contact with the saddle. Besides providing support, the foam also ensures flexibility and softness, so that the pad never feels heavy or bulky. This pad combines hygiene, comfort and anatomical shaping.

The new top fabric used is an eco fabric obtained from recycling which keeps ensuring fast drying, softness and minimize chafing risks.

TECHNICAL FEATURES

- Bi-elastic anatomically shaped pad
- Recycled eco microfiber top layer
- Backing: reticulated high Impact foam
- Lightweight
- High breathability
- Suitable for long-distance competitive/amateur rides

MAN

6 H

GRANFONDO 2.0
DENSITY 120 KG/M2

La versione 2.0 del nostro fondello Granfondo fondamentalmente un aggiornamento nella direzione dell'ecosostenibilità del tessuto di copertura. Parliamo di un fondello che la quasi totalità dei ciclista trovava eccezionale in tutte le caratteristiche che un fondello deve garantire: protezione, supporto, anatomia, flessibilità, morbidezza ed elasticità. L'imbottitura viene ottenuta partendo da un sistema di taglio progressivo di una schiuma reticolata ad altissima densità, modulando lo spessore in base al peso e alla pressione dei vari punti di contatto e garantendo il massimo supporto su tutti i punti di appoggio tra corpo e sella. Tali spugne non solo danno supporto ma garantiscono anche traspirabilità e morbidezza, per un fondello che non risulta mai invadente e pesante.

Questo fondello accosta ora a tutte queste tecniche anche il valore della sostenibilità grazie all'inserimento di un tessuto ottenuto da materiali di riciclo, sempre garantendo le fondamentali caratteristiche di asciugatura rapida e morbidezza che riducono il rischio di arrossamenti da sfregamento.

TECNICITÀ

- Fondello anatomico bielastico
- Tessuto riciclato di copertura
- Spugna di supporto reticolata ad alta densità
- Leggero
- Alta traspirabilità
- Adatto per lunghi percorsi agonistici/amatoriali

ALL TERRAIN

015.100.00908-3000

ALL TERRAIN pad is completely new and offers a really high level of technology, which sees primarily the moulding together of two different layers of foams with two differentiated densities: the more dense one facing the saddle, the softer one facing the rider. At that point through an engraving process the modulated heights are created and when the obtained foam is joined to the upper coverage the best quality and lightest glue is used, at last we pre-shape it to get also a perfectly anatomical shape. The result is a pad that is strongly resistant to pressure and weight but also soft and flexible for the body that it protects from the saddle. From here the indication in the name: All Terrain as this pad is particularly suitable for mixed paths where the rider is strongly solicited by vibrations and shocking impacts.

On top of all the above technicalities we have an eco outer fabric obtained from recycling which keeps ensuring fast drying, softness and minimize chafing risks.

TECHNICAL FEATURES

- Backing with dual-density and dual face foams
- Anatomically shaped pad
- Outer layer in recycled eco fabric
- Lightweight
- High breathability
- Suitable for all ways, in particular gravel and mixed terrains

MAN

5 H

ALL TERRAIN
DENSITY 100 KG/M2

Il fondello ALL TERRAIN è un nuovo fondello con altissimi contenuti tecnici, vede fuse due spugne che presentano due densità differenziate, la più densa alla base verso la sella e la più morbida verso il corpo, vengono poi scarnite modulando i diversi spessori. In accoppiatura con la copertura in tessuto riciclato si usano colle di spessore infinitesimale e il tutto viene preformato dando l'anatomia del corpo. Il risultato è un fondello protettivo tenace nella resistenza opposta a peso e pressione pur restando morbido e accogliente per il corpo che protegge dalla sella con morbidezza ed elasticità. Da qui la nostra indicazione All Terrain in quanto questo fondello si presta per tutti i percorsi anche quelli più sassosi e irregolari del gravel e dell'MTB. A tutte queste tecniche si aggiunge il valore della sostenibilità grazie all'inserimento di un tessuto di copertura ottenuto da materiali di riciclo, sempre garantendo le fondamentali caratteristiche di asciugatura rapida e morbidezza che riducono il rischio di arrossamenti da sfregamento.

TECNICITÀ

- Supporto con spugne a densità differenziata e bifacciale
- Fondello anatomico bielastico
- Tessuto di copertura riciclato, eco
- Leggero
- Alta traspirabilità
- Adatto per tutti i percorsi in particolare misti e gravel

ALL AROUND

015.100.00914-5450

Essential but efficient is the best definition for this pad, it remains one of the most beloved pads among our riders. It is a new version of our 2,6 pad with high density foams which ensure efficient support and a very comfortable fit also for long rides and after hundreds and hundreds of use and washing. Also in this pad we are now using for the outer top layer an eco elastic microfiber obtained from recycling. The hydrophilic properties of the components ensure excellent breathability and quick moisture wicking, to leave your skin feeling fresh. The long front padding provides superior comfort in different bike positioning and freedom of movement.

TECHNICAL FEATURES

- Bi-elastic anatomically shaped pad
- Elastic eco microfiber obtained from recycling
- High breathability
- High-density support
- Lightweight
- Suitable for medium-long distances Suitable for medium-distance road/MTB rides

MAN

4 H

ALL AROUND
DENSITY 100 KG/M2

Essenziale ma funzionale ed efficace è la miglior definizione per questo fondello che rimane uno dei più amati dai nostri ciclisti. E' un aggiornamento del nostro 2,6 ideato con spugne di alta densità, modellato sull'anatomia maschile con uno scarico prostatico centrale. Grazie a tutto questo e all'elasticità dei materiali utilizzati ha un'ottima vestibilità e rimane solido nel supporto anche dopo centinaia di utilizzi e lavaggi. Anche in questo caso abbiamo utilizzato per la parte esterna una microfibra eco ottenuta dal riciclo, con qualità idrofile che consentono un'eccellente traspirabilità e una rapida dissipazione dell'umidità con una conseguente sensazione di freschezza. La parte anteriore allungata permette comfort in varie posizioni sulla bici e una grande libertà nel movimento.

TECNICITÀ

- Fondello anatomico bielastico
- Tessuto in microfibra riciclato elastico di copertura
- Alta traspirabilità
- Supporto alta densità
- Leggero
- Adatto per percorsi medio-lunghi

NALINI CUSTOM TEAMWEAR

Technical and innovative solutions, essential lines: the Teamwear collection is designed to ensure the best performance on two wheels, without sacrificing comfort and safety.

These garments stand out for their wearability and freedom of movement, thanks to the use of light and adherent fabrics, developed specifically to meet every effort and at the same time guarantee maximum breathability.

The Teamwear collection is a 100% Made in Italy product, created entirely at Moa Sport, which thanks to decades of experience in contact with professional athletes, uses a scrupulous and innovative manufacturing process, with Oeko-Tex certification.

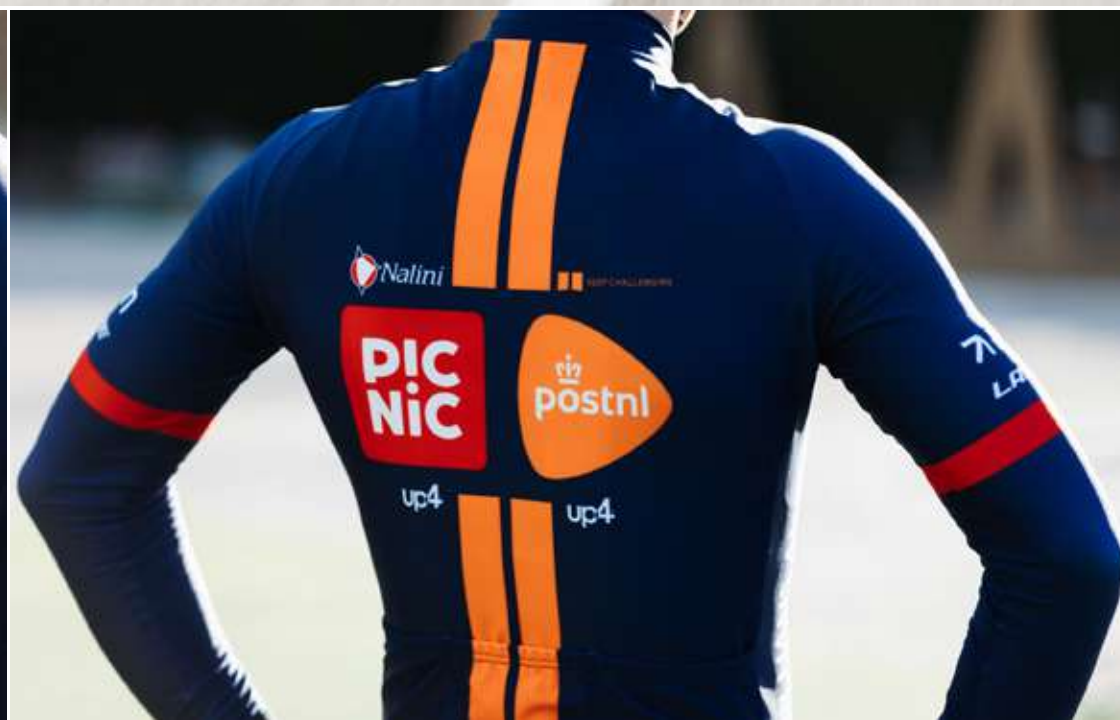

From the competitive cyclist who explicitly seeks a technical and performing line, to those who simply have the passion for two wheels, the three lines Race, Ride and Comfort offer exclusive solutions with three levels of technicality that meet the specific needs of each type of use.

Soluzioni tecniche ed innovative, linee essenziali: la collezione Teamwear è studiata per favorire la migliore performance su due ruote, senza rinunciare a comodità e sicurezza.

Capi che si distinguono per vestibilità e libertà di movimento, grazie all'uso di tessuti leggeri e aderenti, sviluppati specificatamente per assecondare ogni sforzo e allo stesso tempo garantire la massima traspirabilità.

La collezione Teamwear è un prodotto 100% Made in Italy, creato interamente presso Moa Sport, che grazie a decenni di esperienza a contatto con atleti professionisti, si avvale di un processo di lavorazione scrupoloso ed innovativo, con certificazione Oeko-Tex.

Dal ciclista competitivo che cerca esplicitamente una linea tecnica e performante, a chi ha semplicemente la passione per le due ruote, le tre linee Race, Ride e Comfort offrono soluzioni esclusive con tre livelli di tecnicità che rispondono alle esigenze specifiche di ogni tipo di utilizzo.
