BACK TO THE ESSENTIAL

nalini WOMAN

FALL WINTER 2026 | 2027

MADE IN ITALY COLLECTION

YOUR
ATTITUDE

OUR
MISSION

NALINI

THIS IS US

At the end of the 1960s Vincenzo Mantovani, a former professional cyclist, founded a craft workshop, which soon turned into an actual factory: MOA Sport.

Over the years Nalini has partnered with the greatest cycling champions and, under the leadership of Vincenzo's brother, Claudio, the company has kept growing and has consolidated its position as one of the leading suppliers to successful brands in the field of international cycling.

MADE IN ITALY

Italian creativity, craftsmanship and expertise are just a few of the strong points at the base of the longevity of NALINI.

EXPERIENCE

Nalini is an industrial company with an experience of over 50 years, which prides itself on its craftsmanship, its high quality and its attention to detail.

TECHNOLOGY

NALINI's highly specialized technicians and designers will guide you step by step through the development process and will use their experience to come up with solutions tailored to your needs.

SUSTAINABILITY

We use the renewable energy that we generate thanks to our photovoltaic panels on top of our buildings. We recycle and give new life to all the wastage resulting from production. For some articles of our collection and those of our clients' we use recycled fabrics and accessories.

DRESS LIKE A PRO

A history of champions.

Giro d'Italia, Tour de France, Vuelta a España are just some of the prestigious competitive races in which Nalini has indirectly participated thanks to the athletes who have chosen to wear Nalini garments.

The freedom of movement, the excellent construction of the garments and, above all, the careful selection of fabrics have a decisive impact on the athletes' performance, enabling them to constantly reach new goals.

ETHICAL VISION

MOA Sport demonstrates a strong commitment to corporate ethics through its concrete support of the Paralympic world.

By sponsoring the Equa team and partnering with champions such as Andrea Casadei, Ana Maria Vitelaru, and Svetlana Moshkovich, the company not only promotes the values of sport but also fosters inclusion, respect, and determination.

This approach demonstrates Nalini's commitment to investing in projects that foster commitment, resilience, and inclusivity, helping raise awareness of the potential of people with disabilities and the importance of supporting their athletic and personal growth.

Through these sponsorships, Nalini takes an active role in promoting an ethical message that transcends business, emphasizing how social responsibility and attention to people's well-being are fundamental pillars of its corporate identity.

ICEKEY IN CASE OF EMERGENCY

Integrating some of the garments in the collection with a device that provides greater protection for those who pedal goes hand in hand with the constant research and development of new solutions that Nalini deploys as valuable allies for increased safety for its cyclists.

ICE-KEY TAG is a device that, thanks to NFC (Near Field Communication) technology, allows you to keep and have your personal data and medical information with you at all times, which can be viewed by leaning the back of a smartphone against it.

With the ICE KEY TAG application, connected to your device, you can send direct calls and SMS with geographic location to ICE numbers with a simple "click" and you can connect to 112 NUE operations centers. The ICE KEY TAG application allows you to view your documents and alerts you when their expiration date is approaching. If you are abroad, no problem: the information you enter in your profile can be viewed simultaneously translated into 7 languages. You can also enter, edit, delete or consult your information directly from the web, on your ICE-KEY page synchronized with your profile in the ICE-KEY TAG app. Your information will then always be with you, on the Nalini clothing with ICE-KEY TAG. Find out which one these are.

HP EMBOSSED LADY JACKET

03403601100C000.I0

The HP Embossed Lady Jacket is a highly technical, high-performance jacket designed for sporty cyclists who don't want to compromise on style. The exclusive embossed design in the padded central section provides thermal insulation, wind protection and a unique, distinctive look, perfect for a sporty, cool garment. Ideal for cycling on colder days, the jacket also lends itself to a sporty and dynamic look in your free time. Its construction ensures total freedom of movement, comfort and thermoregulation, without sacrificing a fresh and contemporary aesthetic. The HP Embossed Lady Jacket is also equipped with the innovative ICE KEY DEVICE, for an extra level of safety when out and about.

TECHNICAL FEATURES:

- Shaped thermal structure on the front and yoke, designed to offer insulation and an anatomical fit.
- Sleeves in brushed thermal fabric with Aquazero treatment, for effective protection from cold and moisture.
- Back in comfortable stretch fabric with water-repellent treatment, ideal for promoting breathability and freedom of movement without compromising on protection.
- Collar with brushed inner layer for greater thermal comfort on colder days.
- Long divisible zip with internal windproof flap, designed to block air infiltration and improve protection.
- Side pocket with vertical zip in water-repellent fabric, practical and secure even in adverse weather conditions.
- Silicone gripper elastic at the bottom of the jacket for optimal stability while cycling.
- Patch on the central back pocket for attaching a light, for greater safety on the road.
- Integrated ICE KEY tag for immediate identification in case of emergency.

TECNICITÀ:

- Struttura termica sagomata su parte frontale e carrè, studiata per offrire isolamento e una vestibilità anatomica.
- Maniche in tessuto termico garzato con trattamento Aquazero, per una protezione efficace da freddo e umidità.
- Schiena in tessuto comfort stretch con trattamento water repellent, ideale per favorire traspirabilità e libertà di movimento senza rinunciare alla protezione.
- Collo con strato interno garzato, per un maggiore comfort termico nelle giornate più fredde.
- Lampo lunga divisibile con flap interno antivento, progettata per bloccare le infiltrazioni d'aria e migliorare la protezione.
- Tasca laterale con zip verticale in tessuto idrorepellente, pratica e sicura anche in condizioni climatiche avverse.
- Elastico grippante con silicone al fondo giacca, per una stabilità ottimale durante la pedalata.
- Patch su tasca posteriore centrale dedicato all'inserimento della luce, per maggiore sicurezza su strada.
- ICE KEY tag integrato, per un'identificazione immediata in caso di emergenza.

PURE ROAD LADY JACKET

03485001100C000.10

The Pure Road Lady Jacket is a high-performance thermal jacket designed to offer comfort and protection during rides on the coldest winter days. Made from a three-layer fabric with a DWR (Durable Water Repellent) coating, it provides an effective barrier against wind and rain, while maintaining high breathability thanks to the textured inner layer, which promotes thermal regulation and rapid moisture wicking.

Stretch fabrics, positioned in strategic areas, ensure an ergonomic fit and maximum freedom of movement, adapting perfectly to the body's anatomy and the cyclist's needs. Available in current colour variations, it allows for personalised combinations and a distinctive style even in the colder seasons.

Equipped with ICE KEY DEVICE, the innovative system that provides an additional level of safety during rides.

TECHNICAL FEATURES:

- 3-layer stretch fabric with DWR coating, designed to offer protection from wind and moisture while maintaining high freedom of movement.
- Ergonomic sleeve cut, designed to follow the cyclist's posture and ensure optimal comfort while pedalling.
- Long reverse YKK® zip with internal windproof flap for smooth closure and an effective barrier against air infiltration.
- Three spacious and functional rear pockets, finished with reflective piping to improve visibility in low light conditions.
- Silicone gripper at the bottom of the jacket, ensuring a stable fit without riding up.
- Zip garage on the collar to protect the skin from direct contact with the zip.

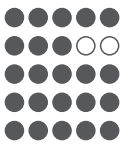

TECNICITÀ:

- Tessuto elasticizzato a 3 strati con spalmatura DWR, progettato per offrire protezione da vento e umidità mantenendo un'elevata libertà di movimento.
- Taglio manica giro ergonomico, studiato per seguire la postura del ciclista e garantire comfort ottimale durante la pedalata.
- Lampo lunga rovescia YKK® con flap interno antivento, per una chiusura scorrevole e una barriera efficace contro le infiltrazioni d'aria.
- Tre tasche posteriori capienti e funzionali, rifinite con piping rifrangente per migliorare la visibilità in condizioni di scarsa illuminazione.
- Elastico grippante con silicone al fondo giacca, che assicura una vestibilità stabile senza sollevamenti.
- Zip garage sul colletto, per proteggere la pelle dal contatto diretto con la zip.

STRIPES LADY JACKET

03563601100C000.10

The Stripes Lady Jacket is a lightweight, high-performance thermal jacket designed for winter outings on the coldest days. Made from a three-layer fabric with a protective membrane and DWR (Durable Water Repellent) treatment, it provides excellent thermal protection and resistance to wind and moisture. The sleeves, a distinctive feature of the garment, are made from aerodynamic striped fabric that promotes airflow, reducing friction and improving efficiency while cycling. The unique structure of the material also offers greater elasticity and freedom of movement, ensuring comfort and consistent performance. The stretch fabric of the body ensures a snug fit and stability, following the cyclist's posture without restricting movement.

TECHNICAL FEATURES:

- Three-layer fabric with protective membrane and DWR treatment for wind and moisture resistance.
- Excellent thermal insulation and breathability for maximum comfort during winter rides.
- Sleeves in aerodynamic ribbed fabric.
- Elastic structure for freedom of movement and stable fit.
- Stretch fabric body that follows the cyclist's posture.
- Long YKK® divider zip with internal windproof flap for secure closure.
- Silicone gripper elastic at the bottom of the jacket for perfect stability in the saddle.
- Reflective details for visibility and safety in low light conditions.

TECNICITÀ:

- Tessuto a tre strati con membrana protettiva e trattamento DWR per resistenza a vento e umidità.
- Eccellente isolamento termico e traspirabilità per il massimo comfort durante le uscite invernali.
- Maniche in tessuto rigato aerodinamico.
- Struttura elastica per libertà di movimento e vestibilità stabile.
- Corpo in tessuto stretch che segue la postura del ciclista.
- Lampo lunga divisibile YKK® con flap interno antivento per una chiusura sicura.
- Elastico grippante con silicone al fondo giacca per una perfetta stabilità in sella.
- Dettagli rifrangenti per visibilità e sicurezza in condizioni di luce ridotta.

HP EMBOSSED LADY VEST

03403801100C000.10

The HP Embossed Lady Vest is a mid-weight vest designed to offer comfort and protection on milder winter rides. The padded surface with an elegant embossed design provides an effective windproof and thermal barrier, making the vest ideal for wearing over a winter jersey or a light technical layer. The stretch fabric on the back improves breathability, fit and elasticity, ensuring a perfect fit without restricting freedom of movement while cycling. The exclusive and refined design gives the garment a unique style, making it suitable not only for sports use, but also for casual and everyday looks. In addition, the HP Embossed Lady Vest features the innovative ICE KEY DEVICE, which offers an extra level of safety for road cycling and in poor visibility conditions. A garment that combines technical functionality, comfort and elegant design in a single solution.

TECHNICAL FEATURES:

- Front and yoke in windproof, thermal and shaped fabric, designed to guarantee protection from the cold and an ergonomic fit.
- Insert on the back in comfort stretch fabric, which ensures maximum breathability and elasticity, promoting thermal regulation during exertion.
- Rear panel dedicated to the pocket area, designed for stability and practicality even when fully loaded.
- Long YKK® zip with internal windproof flap for smooth closure and effective protection against air infiltration.
- Three spacious rear pockets, easily accessible on the move.
- External elastic at the bottom with silicone, which keeps the garment stable while cycling.
- Patch on the central rear pocket for inserting a light, ideal for greater safety on the road.
- Integrated ICE KEY tag for quick identification in case of emergency.

TECNICITÀ:

- Parte anteriore e carrè in tessuto antivento, termico e sagomato, studiati per garantire protezione dal freddo e una vestibilità ergonomica.
- Inserto sulla schiena in tessuto comfort stretch, che assicura massima traspirazione ed elasticità, favorendo la regolazione termica durante lo sforzo.
- Pannello posteriore dedicato all'area tasche, progettato per stabilità e praticità anche a pieno carico.
- Lampo lunga YKK® con flap interno antivento, per una chiusura fluida e una difesa efficace dalle infiltrazioni d'aria.
- Tre capienti tasche posteriori, facilmente accessibili in movimento.
- Elastico esterno al fondo con silicone, che mantiene il capo stabile durante la pedalata.
- Patch su tasca centrale posteriore per l'inserimento della luce, ideale per una maggiore sicurezza su strada.
- ICE KEY tag integrato, per un'identificazione rapida in caso di emergenza.

NEW WRAP LS LADY JERSEY

03488501100C000.IO* | 03488401100C000.IO

New Warp LS Lady Jersey is designed to provide warmth, comfort and softness during winter and mid-season rides. Made from warm, soft fabric, it is ideal for wearing on its own on milder days or as a base layer under a jacket in harsher conditions. The fabric, pre-dyed in the latest colours, combines functionality and style, offering a jersey with a contemporary look that can be easily paired with other technical garments. The ergonomic and comfortable fit makes the jersey perfect for long rides, ensuring freedom of movement and constant warmth.

TECHNICAL FEATURES:

- Comfortable stretch thermal fabric, soft and elastic, designed to guarantee warmth and freedom of movement on the coldest days.
- Long YKK® zip with cam-lock pull tab and internal windproof flap for a secure closure and greater protection from air infiltration.
- Three practical and spacious back pockets, finished with reflective piping to improve visibility in low light conditions.
- Elasticated grip at the bottom of the jersey, designed to keep the jersey in place while cycling.

TECNICITÀ:

- Tessuto termico comfort stretch, morbido ed elastico, pensato per garantire calore e libertà di movimento nelle uscite più fredde.
- Lampo lunga YKK® a vista con tiretto cam-lock e flap interno antivento, per una chiusura stabile e una maggiore protezione dalle infiltrazioni d'aria.
- Tre tasche posteriori pratiche e capienti, rifinite con piping rifrangente per migliorare la visibilità in condizioni di scarsa illuminazione.
- Elastico grippante in lunghezza al fondo maglia, studiato per mantenere la maglia in posizione durante la pedalata.

TIE DYE LADY LS JERSEY

03563201100C000.10

Tie DyeLady LS Jersey is a long-sleeved jersey designed for cyclists who want to stand out with a unique and inimitable style. The special dyeing technique gives the fabric unique shades and shadows, making each garment an exclusive piece. Made from compact, compressive fabric, the jersey offers excellent ergonomic fit, making it perfect for sunny winter days and ideal for use in mid-season. The combination of technical functionality and exclusive design makes the Tie Dye Lady LS Jersey a distinctive garment, suitable for those who do not want to go unnoticed during their bike rides.

TECHNICAL FEATURES:

- Compact, compressive fabric for a snug, high-performance fit.
- Colour bath dyeing technique creates unique shades and tones for each garment.
- Wind protection and natural thermoregulation, ideal for mid-seasons and sunny winter days.
- Excellent breathability and prolonged comfort even during the most intense rides.
- Ergonomic feminine fit that follows the natural lines of the body, ensuring freedom of movement.
- Long YKK® zip with internal windproof flap for protection and comfort.
- Elastic with gripping silicone at the bottom of the jersey for stability while cycling.
- Reflective details for greater visibility in low light conditions."

TECNICITÀ:

- Tessuto compatto e compressivo per una vestibilità aderente e performante.
- Tecnica di tintura a bagno di colore che crea sfumature e tonalità uniche per ogni capo.
- Protezione dal vento e termoregolazione naturale, ideali per le mezze stagioni e le giornate invernali soleggiate.
- Ottima traspirabilità e comfort prolungato anche durante le uscite più intense.
- Vestibilità ergonomica femminile che segue le linee naturali del corpo, assicurando libertà di movimento.
- Lampo lunga YKK® con flap interno antivento per protezione e comfort.
- Elastico con silicone grippante al fondo maglia per stabilità durante la pedalata.
- Dettagli rifrangenti per una maggiore visibilità in condizioni di scarsa illuminazione.

RACE WR LADY BIB TIGHT

03487801100C000.10

Race WR Lady Bib Tight are ideal for cyclists who don't want to give up cycling even on the coldest days. Made with highly elastic fabrics and flat seams, the bib fits the body like a second skin, ensuring maximum comfort, freedom of movement and excellent protection from the cold. The upper part is constructed with a semi-open mesh structure combined with microfibre, which ensures excellent breathability while keeping the body dry and protected.

TECHNICAL FEATURES:

- Ergonomic construction in comfort stretch fabric, designed to offer optimal fit and freedom of movement while cycling.
- Reflective logos, designed to increase visibility in low light conditions.
- Tight-knit mesh bodice with microfibre elastic braces for stable support, high breathability and prolonged comfort.
- Bi-elastic anatomical chamois, capable of adapting to the body's morphology and ensuring protection even on the longest rides.
- Flat seams, designed to reduce chafing and improve comfort in contact with the skin.
- Large elastic and reflective curved insert at the bottom of the leg, ensuring stability and greater safety on the road.

TECNICITÀ:

- Costruzione ergonomica in tessuto comfort stretch, progettata per offrire aderenza ottimale e libertà di movimento durante la pedalata.
- Loghi e inserti rifrangenti, studiati per aumentare la visibilità in condizioni di scarsa illuminazione.
- Corpino in rete a trama fitta con bretelle in elastico in microfibra, per un sostegno stabile, traspirabilità elevata e comfort prolungato.
- Fondello anatomico bi-elastico, capace di adattarsi alla morfologia del corpo e garantire protezione anche sulle uscite più lunghe.
- Cuciture piatte, pensate per ridurre gli sfregamenti e migliorare il comfort a contatto pelle.
- Ampio inserto elastico e rifrangente curvo al fondo gamba, che assicura stabilità e maggiore sicurezza su strada.

FULL SEASON

FOR ALL WEATHER CONDITIONS

BREVA WIND JACKET

03394701100000.10

The Breva Wind Jacket is a windproof and waterproof jacket designed to ensure maximum protection and comfort in the most challenging weather conditions. Made entirely from three-layer fabric with a membrane and DWR (Durable Water Repellent) treatment, it guarantees wind and water resistance with a water column of 10,000 mm, while maintaining excellent breathability thanks to ventilation from the inside out. The elasticity of the fabric allows the jacket to mould perfectly to the curves of the body, ensuring a slim and snug fit, while the lightness of the material allows it to be easily removed and stored in the back pocket when not in use. The iridescent colour increases visibility even in low light or bad weather conditions, giving the garment a distinctive and unmistakable style. The jacket is also equipped with the new ICE KEY device, for an extra level of safety when out on the road.

TECHNICAL FEATURES:

- 90 g/m² 3-layer fabric with water-repellent membrane (10,000 mm water column)
- DWR – Durable Water Repellent treatment
- YKK® reverse zip with cam lock pull tab
- Internal wind protection with zip garage
- Comfortable fabric inside collar
- Reflective logos on front and back
- Silicone gripper hem
- Three back pockets
- Integrated ICE KEY tag

TECNICITÀ:

- Tessuto 3 strati da 90 g/m² con membrana idrorepellente (colonna d'acqua 10.000 mm)
- Trattamento DWR – Durable Water Repellent
- Lampo rovescia YKK® con tiretto cam lock
- Protezione interna antivento con zip garage
- Interno collo in tessuto confortevole
- Loghi rifrangenti anteriori e posteriori
- Elastico grippante con silicone al fondo

SCIROCCO WIND JACKET

033956011000000.I0

The Scirocco Wind Jacket is the perfect windbreaker, combining technical protection with Nalini's unique style. Made from windstopper fabric with a micro-pattern, it guarantees total wind protection in the most exposed areas, while the side panels and underarm panels in stretch fabric ensure a slim fit that follows the curves of the body, offering excellent comfort and freedom of movement.

The lightness and softness of the materials make the jacket easy to pack, transforming it into a versatile and indispensable garment for riding in variable weather conditions. A perfect balance of technical functionality, comfort and elegant design, designed for the most demanding cyclists.

TECHNICAL FEATURES:

- Lightweight, packable windproof fabric
- Front zip with extended pull tab with cord and internal windproof flap
- Sides and underarm inserts in lightweight stretch fabric for better ventilation and fit
- High-visibility reflective logos
- Elasticated jacket hem

TECNICITÀ:

- Tessuto antivento leggero e impacchettabile
- Zip anteriore con tiretto prolungato con cordino e con aletta interna antivento
- Fianchi e inserto sottomanica in tessuto leggero stretch per aerazione e migliore vestibilità
- Loghi rifrangenti alta visibilità

BREVA WIND VEST

034510011000000.I0

Windproof and water repellent vest entirely made of a three layer fabric with DWR (Durable Water Repellent) treatment. The properties of this fabric are highly technical: protection from wind and water with a 10.000 water column, good breathability from inside towards outside and stretchability, combined to an extremely interesting color iridescent with the double function of and high visibility and stylish look. The stretchability of the fabric allowed to shape the garment in a slim fit that wraps the rider and does not leave any excessive fabric around the body.

The lightness, despite the three layers, gives the possibility to pack it and carry it in a pocket.

TECHNICAL FEATURES:

- 3layer fabric, weight 90 gr/m² with membrane 10.000 water column
- D.W.R. treatment (Durable Water Repellent)
- Reversed full-length cam-lock zipper YKK® with wind flap behind zip and chin guard on top
- Inner collar in comfortable fabric
- Reflective logos in front and back side
- Silicone elastic band at waist
- 3 rear pockets

TECNICITÀ

- Tessuto 3 strati da 90 gr/m² con membrana idrorepellente colonna d'acqua 10.000 mm
- Trattamento D.W.R. (Durable Water Repellent)
- Lampo rovescia YKK® con tiretto cam lock
- Protezione interna antivento con zip garage
- Interno collo in tessuto confortevole
- Logo rifrangente anteriore e posteriore
- Elastico grippante con silicone al fondo
- 3 tasche posteriori

SCIROCCO WIND VEST

03395701100C000.10

Scirocco Wind Vest is the must-have windstopper for tackling the most variable weather. The micro-designed windstopper fabric makes the front and back highly protective and insulating while the stretch fabric side panels allow a unique fit and total freedom of movement. The lightweight fabric allows the vest to be quickly packed up and stored in the pocket ready for every eventuality.

TECHNICAL FEATURES:

- Lightweight, windrestistant, packable
- Front zip with longer cord puller and with windproof storm inside flap
- Stretch side panels and underarm panels for transpiration and better fit
- Reflective logos for high visibility
- Elastic waistband

TECNICITÀ:

- Tessuto antivento leggero e impacchettabile
- Zip anteriore con tiretto prolungato con cordino e con aletta interna antivento
- Fianchi e inserto sottomanica in tessuto leggero stretch per aerazione e migliore vestibilità
- Loghi rifrangenti alta visibilità
- Fondo giacca con elastico

STORM JACKET

03555701100C000.10

Storm Jacket is the new version of Nalini's lightweight, waterproof jacket. Heat-sealed seams and lightweight fabric make the jacket ideal for outings in variable weather.

TECHNICAL FEATURES:

- Water repellent treatment
- Raglan sleeves
- Wind flap behind zip and chin guard on top
- Inner collar in comfortable fabric
- Side pockets inside
- Reflective details at the back
- Waterproof zip with cam-lock puller
- Elastic waistband
- Light water protection

TECNICITÀ:

- Trattamento idrorepellente
- Manica raglan
- Aletta interna antivento con zip garage
- Interno collo in tessuto confortevole
- Taschino interno laterale
- Fettucce rifrangenti posteriori
- Zip anteriore spalmata con tiretto cam lock
- Profilo elastico al fondo
- Leggera protezione dalla pioggia

BAS BRIZA JACKET

03033001100C000.10

The windproof jacket with slim fit and quick packability. Made of stretch fabric for unique comfort and waterproof treatment.

TECHNICAL FEATURES:

- Inserts of mesh in the underarm area and on the inside of back opening for better transpiration
- Lycra elastic binding in contrasting neon yellow
- Reflecting logo and transfer for improved visibility under poor lighting
- Pocket at the inside for packing the jacket, including drawstring and stopper
- Reverse zipper and chinguard

TECNICITÀ:

- Inserti in rete nella zona ascellare e sotto l'apertura sulla schiena per migliore traspirabilità
- Bordatura in lycra a contrasto in giallo fluo
- Logo e transfer rifrangenti per migliorare la visibilità in condizioni di scarsa illuminazione
- Tasca interna per impacchettare la giacca con cordino e ferma cordino
- Zip rovescia e patella sottolampo

FITTING

The table indicates the correspondence between sizes and the measurements in centimeters of your body.

To determine your size accurately, measurements should be taken without clothes; the tape measure should fit snugly against the skin, without squeezing.

Our size guide considers that the cycling garment should wrap the body pretty closely, if you wish to have a more comfort and loose fit, we suggest to go for a bigger size, especially when your measurement is on the limit of the bigger size and also when the garment is featured as a slim/race fit garment.

La tabella indica la corrispondenza delle taglie con le misure in centimetri del proprio corpo.

Per determinare la taglia con precisione, le misure vanno prese sul corpo nudo; il metro deve aderire perfettamente alla pelle, senza stringere.

Consigliamo di tenere presente l'indicazione rispetto alla vestibilità che trovate indicata nei capi, se il capo è contrassegnato da vestibilità slim e non si desidera un capo ben aderente e teso, consigliamo di passare ad una taglia superiore rispetto a quella corrispondente alle misurazioni.

XRACE

These garments are particularly slim fit, jerseys and jackets are shorter on the frontal part to avoid folded exceeding fabric on belly when on bike.

Questi capi hanno un taglio particolarmente asciutto, maglie e giacche sono più corte nella parte frontale per evitare tessuto piegato in eccesso al ventre del ciclista quando in bici.

RACE

Anatomic and ergonomic-fit garments for demanding cyclists.

Capi con taglio anatomico ed ergonomico per ciclisti esigenti.

REGULAR

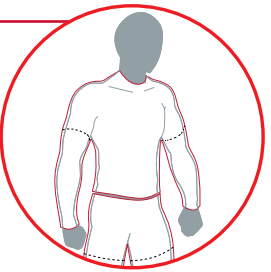

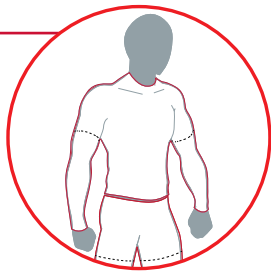

Standard-fitting garments with particular focus on comfort.

Capi meno attillati con una particolare attenzione al comfort.

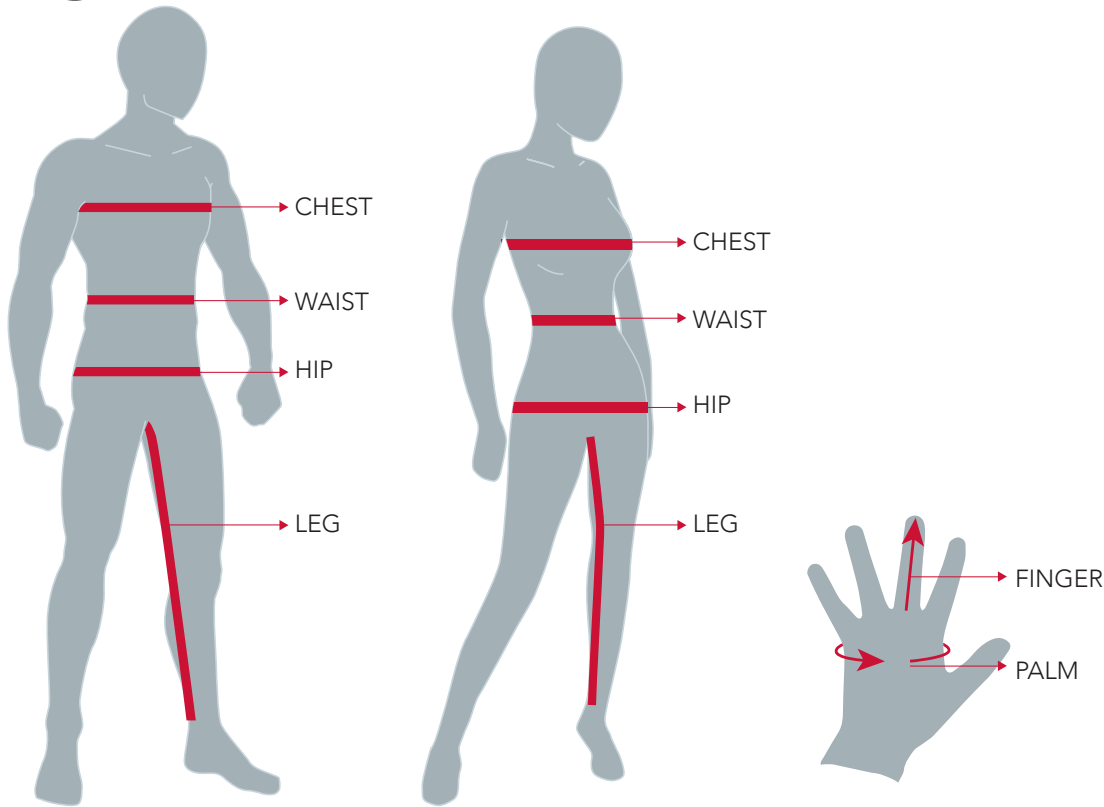

COMFORT

This indication is given on garments that are meant to be more loose and not very close to the body, and on garments that are very stretchy and therefore very adaptable such as the seamless ones.

Questa indicazione è data su capi che sono pensati per una vestibilità morbida non così vicina al corpo del ciclista, e su capi con una tale elasticità che permette grande adattabilità come quelli seamless.

PADS

The Pad has a protective function and therefore it is considered one of the most important contact points between the cyclist and the bicycle.

It is good to keep in mind that little or excessive protection can develop various diseases for the cyclist: from nerve inflammation up to real circulatory problems and complications. You can protect yourself without neglecting comfort and performance! Moa Sport has been among the first to introduce the pad in cycling clothing. Today's know-how of the company is based on almost 50 years of collaboration with professional teams as Banesto, Telecom, Carrera, Mercatone, Movistar, Astana, etc., and their champions as Hindurain, Ulrich, Pantani, Chiappucci, Vinokourov, Valverde, Nibali, Aru and many others. They have contributed with precise indications and feedback to the development of the pad, to make it really functional for protection and performance.

In all these years professional riders have helped Moa Sport to understand how to improve this essential part of the rider's equipment, but also we have learnt how it can be an accessory totally subjective.

For this reason, we have developed pads with different protections, densities, technologies and materials always with a particular attention to details... Because as it is known, they make the difference!

All our pads are produced with Oeko-tex® certified materials. Oeko-tex® is a certification that safeguards users from the presence of dangerous substances in the fabrics. Moreover, our fabrics and foams are all antibacterial, light, breathable, hydrophilic, and soft and they are assembled with modern technology and design.

In the range of the pads branded Nalini/Moa, you will surely find one that suits your saddle and your riding activity.

Per il ruolo protettivo che svolge, il Fondello (anche conosciuto come Pad o Chamois), è tra i punti di contatto tra ciclista e bicicletta, forse il più importante!

È bene tenere presente che, poca o eccessiva protezione possono sviluppare svariate patologie in chi pratica ciclismo: da infiammazioni di natura nervosa fino a veri e propri problemi circolatori con relative complicanze. Proteggersi sì, ma senza trascurare comfort e prestazione! Moa Sport è stata tra i primi ad aver introdotto il fondello nell'abbigliamento tecnico per ciclisti; il know-how dell'azienda è dovuto a quasi 50 anni di collaborazione con Team professionistici come Banesto, Telecom, Carrera, Mercatone, Movistar, Astana, etc., e al dialogo con i campioni che hanno militato in queste squadre: da Hindurain, Ulrich, Pantani, Chiappucci fino ad arrivare ai Vinokourov, Valverde, Nibali, Aru e centinaia di altri grandi atleti che puntuali hanno indirizzato Moa Sport nella creazione di prodotti di altissima qualità, sia per la protezione sia per la performance.

Tutti questi anni al fianco di grandi professionisti hanno aiutato Moa Sport a capire quanto un fondello possa essere indispensabile per praticare ciclismo, ma anche quanto sia un accessorio assolutamente soggettivo.

Per questo motivo sono stati sviluppati fondelli con diverse protezioni, densità, tecnologie e tessuti, sempre con una particolare attenzione ai dettagli... Perché si sa, fanno la differenza!

Tutti i fondelli di Moa Sport sono prodotti con materiali certificati di aziende certificate Oeko-tex®, ente che tutela la qualità dei materiali. Questa prerogativa rende i prodotti eccellenti, per quanto riguarda antibattericità, leggerezza, traspirabilità, idrofilia e morbidezza ma anche per tecnologia e design.

Nella gamma di fondelli firmati Nalini/Moa Sport troverete sicuramente quello adatto alla vostra sella e alla vostra attività sportiva.

RANDONNÉ LADY

015.100.00916

Our next-generation Randonnée Lady pad is specifically designed to fit a woman's body and is ideal for long distance riding. The use of reticulated foam offers maximum support in all three basic saddle positions: descending, climbing and racing. Besides providing support, the foam suits perfectly all riding movements and positions. It combines hygiene, comfort and anatomical design. The antibacterial treatment ensures hygiene, the microfiber fabric guarantees comfort and softness, and the structure of the fabric touching the skin provides fast moisture wicking, leaving you feeling fresh at all times.

TECHNICAL FEATURES

- Oeko-tex® certified materials
- Bi-elastic anatomically shaped pad
- Structured microfiber tissue
- Natural antibacterial treatment
- Lightweight
- Suitable for long-distance competitive/amateur rides

WOMAN

10 H

RANDONNÉ LADY
DENSITY 80/100 KG/M2

Il Randonnée Lady è un fondello di nuova generazione studiato specificatamente per l'anatomia femminile e con una costruzione adatta ad uscite molto lunghe. L'utilizzo delle spugne reticolate offre il massimo del supporto in tutte e tre le posizioni classiche della pedalata: descending, climbing e racing. Tali spugne non solo danno supporto, ma si adattano perfettamente ai movimenti e alle posizioni del ciclista. Abbina assieme comfort, anatomia e igiene grazie al trattamento antibatterico e alla microfibra che lo rende morbido. Infine, la struttura del tessuto a contatto con la pelle garantisce una rapida dissipazione dell'umidità e mantiene una sensazione di fresco.

TECNICITÀ

- Materiali certificati Oeko-tex®
- Fondello anatomico bielastico
- Tessuto strutturato in microfibra
- Trattamento antibatterico naturale
- Leggero
- Adatto per lunghi percorsi agonistici/amatoriali

ALL TERRAIN LADY

015.100.00910-3000

ALL TERRAIN pad is completely new and offers a really high level of technology designed in this Lady version for the anatomy of the female body. It is primarily created through the moulding together of two different layers of foams with two differentiated densities: the more dense one facing the saddle, the softer one facing the rider. At that point through an engraving process the modulated heights are created and when the obtained foam is joined to the upper coverage the best quality and lightest glue is used, at last we pre-shape it to get also a perfectly anatomical shape. The result is a pad that is strongly resistant to pressure and weight but also soft and flexible for the body that it protects from the saddle. From here the indication in the name: All Terrain as this pad is particularly suitable for mixed paths where the rider is strongly solicited by vibrations and shocking impacts. On top of all the above technicalities we have an eco outer fabric obtained from recycling which keeps ensuring fast drying, softness and minimize chafing risks.

TECHNICAL FEATURES

- Backing with dual-density and dual face foams
- Anatomically shaped pad
- Outer layer in recycled eco fabric
- Lightweight
- High breathability
- Suitable for all ways, in particular gravel and mixed terrains

WOMAN

5 H

ALL TERRAIN LADY
DENSITY 100 KG/M2

Il fondello ALL TERRAIN è un nuovo fondello con altissimi contenuti tecnici, progettato in questa versione Lady per l'anatomia del corpo femminile. Vede fuse due spugne che presentano due densità differenziate, la più densa alla base verso la sella e la più morbida verso il corpo, vengono poi scarnite modulando i diversi spessori. In accoppiatura con la copertura in tessuto riciclato si usano colle di spessore infinitesimale e il tutto viene preformato dando l'anatomia del corpo. Il risultato è un fondello protettivo tenace nella resistenza opposta a peso e pressione pur restando morbido e accogliente per il corpo che protegge dalla sella con morbidezza ed elasticità. Da qui la nostra indicazione All Terrain in quanto questo fondello si presta per tutti i percorsi anche quelli più sassosi e irregolari del gravel e dell'MTB. A tutte queste tecniche si aggiunge il valore della sostenibilità grazie all'inserimento di un tessuto di copertura ottenuto da materiali di riciclo, sempre garantendo le fondamentali caratteristiche di asciugatura rapida e morbidezza che riducono il rischio di arrossamenti da sfregamento.

TECNICITÀ

- Supporto con spugne a densità differenziata e bifacciale
- Fondello anatomico bielastico
- Tessuto di copertura riciclato, eco
- Leggero
- Alta traspirabilità
- Adatto per tutti i percorsi in particolare misti e gravel

ALL AROUND LADY

015.100.00917-5450

This pad is specifically designed to suit the woman's anatomy and to provide an intense and soft protection. The construction uses multi-density foams to ensure stronger support to the sit bones while reducing pressure on the pubic area thanks to the use of softer foams on the front.

The outer layer is in a recycled microfiber which apart from this aspect linked to sustainability provides high breathability and fast drying, making you feel fresh and dry at all times.

TECHNICAL FEATURES

- Bi-elastic anatomically shaped pad
- Elastic eco microfiber obtained from recycling
- Differentiated support between front and rear part
- Lightweight
- High breathability
- Suitable for medium-distance rides

Fondello ideato per l'anatomia femminile e caratterizzato da un'ottima vestibilità. La costruzione con spugne differenziate garantisce maggior supporto in zona ischiatica con spugne ad alta densità e un confortevole appoggio in zona pubica con spugne di poco più alte ma morbide.

Il tessuto di copertura è un tessuto riciclato che oltre a questo importante aspetto di rispetto ambientale garantisce massima traspirabilità, un'asciugatura rapida con conseguente sensazione di freschezza e asciutto.

TECNICITÀ

- Fondello anatomico bielastico
- Tessuto in microfibra riciclato elastico di copertura
- Supporto differenziato tra parte anteriore e posteriore
- Leggero
- Alta traspirabilità
- Adatto per percorsi di media lunghezza
